

KIT 2211

INSTALLATION INSTRUCTIONS

For installing a Hoshizaki KM630 on a REMCOR® TJ300 dispensers, use Fig. 1 as a guide.

1. Seal the icemaker to the dispenser cover as follows:
 - A. Run a bead of RTV on the dispenser cover on the front and rear outline of the ice maker frame (2 sides) as shown.
 - B. Set ice maker onto cover - position as shown.
 - C. Wipe excess RTV away immediately.
 - D. Install gaskets on lids. Locate lid and drill holes (.136 diameter) for sheet metal screws, using the lid as a template.
2. Locate and drill holes into the dispenser cover and ice maker cabinet for mounting the rear icemaker brackets.
3. Dispenser cover opening is to be completely covered.
4. Install adhesive backed gasket strip on icemaker.
5. Follow the manufacturer's instructions to complete the installation of the ice maker.
