

## **INSTALLATION INSTRUCTION**

---

### **FOR KIT #02257**

Scotsman Model CM51002 Icemaker/Remcor Model TJ400 Dispenser

1. Seal icemaker to dispenser top cover as follows:
  - A. Locate outline of icemaker on dispenser cover as shown in attached sketch.
  - B. Run a bead of RTV around the inside of the icemaker outline on the cover.
  - C. Position the icemaker on the dispenser cover.
  - D. Wipe away any excess RTV immediately.
2. Using the mounting brackets as template, locate and drill holes in the icemaker cabinet for the #10 sheet-metal screws provided in the kit. Drilling must not interfere with icemaker components.
3. Install insulation strip on removable lids as shown.
4. Using the lids as a template, locate and drill holes in the dispenser top cover for #10 sheet metal screws.
5. Follow the icemaker manufacturer's instructions to complete the installation. Ice level will be reduced due to icemaker control.
