		\$287.76

We offer:

- 3 year or 60,000km warranty on parts & labor
- Vehicle left on site 3 days work completed are subject to a \$20/day storage fee
- Old parts not collected 5 days after paid invoice work will be disposed
- No warranty on repairs not diagnosed by CG Motorsports.

CONDITIONS OF SALE AND WARRANTY

1. CG Motorsports Inc. ("CG") warrants, to the original purchaser (the "Customer") only, that work performed by CG's personnel ("Workmanship") and materials supplied by CG ("Parts") are free from defects, providing the Customer engages CG's work product only in normal use and service and maintains it in accordance with OEM instructions and manuals.
2. Where CG has installed only new Parts, CG warrants its Workmanship and Parts for the first-occurring of three years or 60,000 kms. of use. For work involving CG's installation of used Parts, CG warrants its Workmanship and Parts for the first-occurring of 3000 kms. or 90 days. The warranty period runs from date of invoice; on expiration of the specified period, CG's liability under this warranty terminates absolutely. Warranty applies to the original period only and does not cover loss or damage to, or caused by, Workmanship provided without charge or to address a previous warranty claim.
3. Customer's parts-in-service re-installed by CG will be first inspected and qualified by CG in accordance with reasonable and usual industry practice. CG will not be responsible for subsequent insufficient performance or failure of such parts. If requested by Customer, CG will install customer-supplied new or used parts, but on the basis that CG provides no warranty whatever on parts or workmanship. The cost of additional parts or labour necessitated by misfit or other insufficiency of Customer-supplied parts, shall be charged to Customer.
4. If requested by Customer, CG will provide Parts or labour designed or intended to enhance performance beyond OEM specifications. CG provides no warranty for such Parts or Workmanship, for which Customer takes full responsibility. Customer alone is responsible for selection of such parts or procedures and for any and all consequences of their use, but may be covered by parts manufacturer's warranty. Emission system modifications are intended for off-road use only; Customer is solely responsible for safe and legal use of the vehicle.
5. It is a precondition for warranty coverage that CG's invoice be paid in full. Customer must, within the warranty period, report any problem to CG immediately on becoming aware of it and must, at Customer's expense, return the vehicle to CG within 30 days of the appearance of the problem. The vehicle must be returned complete and in as-failed condition; it must not have been dismantled, partially dismantled, or altered from its as-failed condition. Warranty repair or replacement, at CG's discretion, will be provided, at CG's facility, on the basis of CG's determination of eligibility for coverage. No cash refunds will be provided. Except with CG's written prior approval, CG will not pay for repairs obtained from others. CG will not be responsible for its work product where that has been modified by others, either before or after failure.
6. This warranty does not cover: downtime, renting replacement vehicle or other consequential costs; towing charges; overtime labour; dyno test costs; fluids, filters, hoses or other service items; loss resulting from any modification of CG's work, of the vehicle or its OEM performance characteristics; abuse, accident or failure to maintain; progressive damage resulting from continued operation after occurrence of event covered by warranty; product used in any race or speed trial; personal injury or death to any person; repairs made to Customer's specifications rather than according to CG's recommendations; travel time and all travel-related charges. It is a precondition for warranty coverage that CG be present for start-up and for all operation of its work product through to successful road test and release by CG. CG's liability under this warranty is limited to the cost of materials and labour to repair a defect in Workmanship or Parts up to, at a maximum, the amount of CG's original invoice.
7. Work performed by a contractor to CG is, for the period specified by the contractor, covered by only the contractor's warranty. CG will assign the contractor's warranty to Customer, and will use all reasonable efforts to ensure that the contractor complies with its warranty obligation.
8. This document states CG's entire warranty; it describes the entire obligation and liability of CG, to the exclusion of all other warranties and conditions of sale, whether express, statutory or implied, arising from law, equity, or any other source, including, without limitation, any condition or warranty of merchantability or fitness for a particular purpose.
9. This transaction and this warranty are subject to and shall be construed by and in accordance with the laws of British Columbia. British Columbia law courts (including BCCRT) shall provide the sole forum for resolution of any dispute which may arise in connection with this transaction or this warranty.
