

La Porte Wastewater Treatment Facility

Multimodal commodity servicing on the Houston Ship Channel...

Discharge Permit & Capacity

- Site is currently permitted
- 760 million gallon discharge permit in place
- Ready to receive industrial wastewater immediately
- Scalable capacity for expansion
- 24/7 operational capacity

Exploration & Production Waters (E&P)

- Salt Water
- Completion, Work Over & Stimulation Fluids
- Storage Tank Sludge from Production Operations
- Produced Formation Water
- Rain Water
- Washout Water & Residual Solids
- Washout Pit Water
- Pipeline Water & Wastewater
- Crude Oil Spill Clean Up

Non-Hazardous Industrial Liquid Waste

- Acidic Wastewaters
- Brine and Salt Waters
- Caustic Wastewaters
- Chemical Wastewaters
- Contaminated Groundwaters
- Contaminated Storm Waters

- Coolant Wastewaters
- Equipment Wastewaters
- Industrial Sludge
- Landfill Leachate
- Metal Bearing Liquids
- Oily Waters
- Oil Water Separator Contents
- Organic Liquids
- Organic Chemical Wastewaters
- Petrochemical Wastewaters
- Pipeline Cleanout Wastewaters
- Process Waters
- Rail Car / Tanker Washout Waters
- Remediation Waters
- Tank Sludges & Washout Waters
- Wastewaters with Solids

Treatment Capabilities

- Liquid waste collection and receiving
- Chemical processing and filtering
- Oil/water separation
- Primary and secondary treatment systems
- NPDES compliant discharge

Infrastructure

- 840 MW electrical capacity available
- Multiple pipeline crossings for intake/discharge
- Houston Ship Channel frontage for marine discharge
- Rail access for tanker car receiving
- Highway access for truck receiving

AMERITANK

Terminal Address

2012 Miller Cut Off Rd
La Porte, TX 77571
United States of America

"Ameritank is a multimodal terminal on the Houston Ship Channel offering liquid storage for petroleum products, chemicals, and NGLs, plus barge operations, industrial outdoor storage, and water services—all with rail, marine, truck, and pipeline connectivity".
