

August 10, 2026

The New York City Council
City Hall
New York, NY 10007

Dear Members of the New York City Council:

We – the undersigned delivery and logistics companies from across New York City who are members and supporters of the New York Delivers Coalition – write to express our strong opposition to Intro 0518-2026. We urge the New York City Council to consider the real world ramifications this legislation will have on the small, family-owned business community that powers New York's last-mile delivery ecosystem.

Last-mile delivery is critical to New York City's economy and daily life, with more than [2.5 million packages](#) delivered daily to New Yorkers and local businesses across the five boroughs who depend on these deliveries. We have consistently warned that Intro 518 would threaten jobs, hurt small businesses, and increase delivery costs. An independent analysis by AKRF validates those concerns, finding that Intro 518 could put more than [10,000 New York City jobs at risk](#), eliminate hundreds of locally owned delivery businesses, increase costs for consumers and small businesses by as much as \$664 a year per consumer, and make New York City's last-mile delivery network less efficient.

Last-mile delivery supports thousands of New Yorkers, including parents, caregivers, immigrants, veterans, and workers without four-year college degrees, by providing dignity, stability, and a pathway to economic mobility. We support safe workplaces, strong worker protections, and responsible business practices, which can all be achieved without sacrificing thousands of jobs, forcing small businesses to close, or disrupting the delivery network that serves millions of New Yorkers every day.

Before jumping to conclusions, we invite every Member of the Council to visit one of our facilities, meet the workers and small business owners who keep New York moving, and see firsthand what is at stake. We welcome the opportunity to show you how this industry operates, the opportunities it creates, and the real people whose livelihoods would be affected by Intro 518.

We respectfully urge the Council to reject Intro 518 and instead work directly with workers, small business owners, and community stakeholders to develop solutions that strengthen worker protections while preserving jobs, supporting local businesses, and maintaining a reliable and affordable last-mile delivery network for all New Yorkers.

Thank you for your consideration.

Sincerely,

Lue Ahmed
