

# Revolutionizing Cross-Border Freight

**Mone Transport** specializes in Mexico-USA cross-border freight. With offices in both Mexico and the United States, Mone was searching for a sophisticated TMS that could streamline and optimize their complex operation.

## CHALLENGES

### Manual, Slow Invoicing

Processing invoices took more than three days.

### Limited Carrier Features

Their previous TMS lacked the innovations they needed for carrier-focused operations.

### Cross-Border Complexity

Managing operations in both the U.S. and Mexico required bilingual support and international compliance.

## THE ALVYS SOLUTION

### One System, Full Visibility

Eliminated the need for multiple platforms.

### Faster Invoicing

Reduced invoice processing time from 3+ days to near-instant.

### Seamless Driver App

Enabled drivers to upload documents instantly, expediting operations.

### Bilingual Support

Ensured smooth communication between U.S. and Mexico-based teams.

“We love that Alvys is always innovating. They’re not standing still, and that’s exactly what we need — a partner that stays on the forefront of new technology and features. It just works.”

**Andres Garcia**  
Director of  
Mone Transport

## RESULTS

### Major Time Savings

Transitioning to Alvys freed up countless hours in manual processes.

### Improved Cash Flow

Faster invoicing means Mone Transport gets paid quicker.

### Stronger Customer Relationships

Increased efficiency and transparency led to more freight opportunities.

### Constant Innovation

With Alvys continuously improving, Mone Transport stays ahead of the competition.

“Alvys helps us be more efficient, saves us a ton of time, and improves our cash flow. That’s huge for our cross-border operations.”

**Andres Garcia**  
Director of  
Mone Transport

## LOOKING AHEAD

With **Alvys** as their trusted partner, **Mone Transport** now operates with greater efficiency — empowering them to scale cross-border operations and stay ahead of the competition.
