**TA** 4.8 g/L

“The Yosemite Cellars wines are a reflection of the stunning and unique landscape for which they are named.”

**Meredith McGough**  
Winemaker

### CALIFORNIA DREAM WINE.

There is no other place on earth that you'll find the dizzying landscape of Yosemite National Park. Trust us, we've looked. We love this land in all its glory, from the towering granite monoliths and rugged skyline to the ancient sequoias and winding waterways. It's why we chose this land for our vineyard - located 3,000 feet above sea level at the base of the park in the Sierra foothills in the town of Groveland, CA.

After picking, the fruit is allowed to remain on its skins for sufficient time to allow some color and texture extraction before being pressed. The juice is allowed to settle overnight and then fermented at cold temperatures to retain the pungency of its aromatics. This wine is wonderfully floral and is complemented by a generous mix of tropical fruit and citrus.

Harvested the third week of September, this wine finds the razor's edge between brambly sun-baked dark berry fruit and all the peppery nuance you would expect in a varietally distinct Cabernet Franc. This dichotomy exists thanks to the low yields of the 2020 vintage ripening on the southern-exposed vines atop the Sierra Foothills at 3000ft above sea level.
