

Executive Summary

QORE Ventures supports early-stage and growth-stage startups on their path to funding or acquisition. The practice focuses on building investor-grade foundations across finance, legal structure and operations. Through an integrated, hands-on approach, we help founders bring order to their finances and gain clear visibility into their numbers, ownership, traction, and market positioning — meeting the expectations of top-tier investors.

End-to-End Roadmap to Funding

01 Cap Table Toolkit

A complete suite featuring editable Seed-to-Series A cap tables, scenario planners for SAFEs and convertible notes, and dilution calculators for clear ownership structure insights.

02 Financial Model

A ready-to-use framework with 3–5 year projections, burn rate and runway tools, tax and cash flow analysis, plus unit economics and milestone mapping for growth and funding.

03 Operational Setup

Structured data room, legal setup guidance, and a due diligence playbook to build a solid, investor-ready foundation.

04 Fundraising Strategy

A step-by-step timeline paired with a targeted investor list builder, plus clear guidance on use of funds and valuation to maximize fundraising success.

05 Investor Engagement

Complete pitch deck templates with feedback guidance, investor expectation planning, and commitment documentation to streamline fundraising and build strong investor relationships.

Expected Results

QORE Ventures prepares startups to be ready, credible, and competitive in front of investors. The result is a clear investment case, professional execution, and a smoother path to funding or acquisition.
