SIDE ENTERING AGITATOR

**FOR DIRECT MOUNTING THROUGH WALLS OF
PROCESS VESSELS AND STORAGE TANKS**

- . Greater agitation where it matters, at the bottom of the vessel.
- . Simple installation, even into existing plant.
- . Robust all steel construction.
- . Packed gland shaft sealing arrangement.
- . Avoids messy problems associated with vertical, extended spindle agitators.

SPECIAL SIZES AND TYPES MAY BE BUILT TO
CUSTOMER'S SPECIFICATION
AVAILABLE IN 2.2 kW AND 4 kW
