SIDEKICK

DESIGNED FOR EASY TRANSPORT
AND RAPID DEPLOYMENT.

AIRLINE-CHECKABLE

200-SERIES Man-Portable Tripod

The Sidekick is the newest member of BlueSky Mast's trusted product line, backed by over 20 years of excellence in delivering tactical ground-based mast systems to the Defense market. Designed to seamlessly integrate with the same mounting accessories our customers have relied on for decades, the Sidekick ensures continuity, compatibility, and unmatched performance in the field.

KEY BENEFITS AND CAPABILITIES

PORTABILITY REDEFINED

Meets airline checkable standards with a lightweight and compact design, ensuring effortless transport to any mission site.

VERSATILE DEPLOYMENT

Perfect for hard surface mounting, rooftop operations, or rugged mountain top fielding, the Sidekick adapts to any environment.

RAPID SETUP FOR CRITICAL SYSTEMS

Ideal for grab-and-go operations, enabling quick deployment of Electronic Warfare and Signals systems in dynamic scenarios.

LEGACY COMPATIBILITY

Designed to leverage the same toolless mounting accessories used across our larger systems, providing seamless integration and cost savings for our customers.
