PRODUCT DESIGNER

EDUCATION

UX Design Professional Certificate | UC San Diego Extended Studies | Sept 2025 - June 2026

Google UX Professional Certificate | Coursera | Mar 2025 - June 2025

B.S. Clinical Psychology, B.A. Ethnic Studies | UC San Diego | Sept 2016 - June 2020

SKILLS & TOOLS

Product Design: Product Strategy, UX/UI Design, Visual Design, Interaction, Design Ideation, Design Thinking, Design Systems, Component Libraries, High-Fidelity Mockups, Interactive Prototypes, User Flows, Information Architecture, Wireframing, Responsive Design, Accessibility (WCAG), Design Documentation

Research: UX Research, Qualitative Research, Research Planning, User Interviews, Usability Testing, Design Reviews, Journey Mapping, Competitive Analysis, Affinity Mapping, Insight Synthesis

Development: HTML, CSS, Webflow, SEO Fundamentals

AI & Tools: Figma, FigJam, Generative AI, Claude MCP, Claude Code, ChatGPT, Figma Make, Cursor, Miro, Notion, Trello, Adobe Creative Suite

Collaboration & Strengths: Cross-Functional Collaboration, Stakeholder Communication, Design Reviews, Product Ownership, Engineer Collaboration, Design Handoffs, Attention to Detail, Iterating on Feedback

PROFESSIONAL EXPERIENCE

Design Manager | Develop for Good | Remote | May 2026–Present

- Own product features from discovery through high-fidelity UI, prototyping, stakeholder feedback, and engineer handoff, leveraging AI-assisted workflows to accelerate ideation, synthesis, and iteration.
- Lead a cross-functional team of designers and engineers through the full product lifecycle, partnering with nonprofit stakeholders to define project requirements, understand user needs, and deliver a redesigned website aligned with organizational goals.
- Build reusable Figma components, Auto Layout screens, and a scalable design library to support design consistency, efficient workflows, and engineering collaboration, reducing design and development time.
- Apply accessibility standards, responsive design principles, and usability best practices to create an intuitive web experience, decreasing bounce rate and task completion time.

Clinical Research Coordinator | Pacific Treatment & Research Center | Apr 2024–Sep 2025

- Managed complex workflows across a randomized clinical trial, coordinating timelines, scheduling, and communication among multidisciplinary teams, optimizing participant recruitment and retention.
- Maintained project documentation, progress trackers, and regulatory materials, ensuring accuracy and internal alignment for project deliverables.
- Collaborated with multidisciplinary stakeholders to identify participant needs, improve workflows, and implement user centered solutions that increased accessibility and engagement.
- Led team meetings, created Standard Operating Procedure documents, and facilitated training.

Research Associate | UC San Diego Health | Jun 2020–Apr 2024

PRODUCT DESIGN PROJECTS

Portfolio: lalinozyazgan.com

- Designed responsive web and mobile product experiences from the user research discovery phase through interaction design, high-fidelity UI, and prototyping.
- Leveraged AI-assisted tools including Figma Make, Cursor, Claude Code, and ChatGPT to accelerate ideation, wireframing, prototyping, research synthesis, and design iteration.
- Applied information architecture, visual hierarchy, and accessibility principles to create intuitive digital products.
