PRODUCT DESIGNER | UX/UI

SKILLS & TOOLS

Design: User-Centered Design, Interaction Design, Information Architecture, User Flows, Wireframing, High-Fidelity UI, Interactive Prototyping, Responsive Design, Usability, Accessibility (WCAG), Design

Documentation, Digital Design, UX/UI Design, Design Systems, Branding & Visual Systems, Typography

Research & Analysis: UX Research, UX Audit, User Interviews, User Research, Usability Testing, Qualitative Research, Requirements Gathering, Workflow Analysis, Competitive Analysis, Insight Synthesis

Collaboration: Stakeholder Communication, Cross-Functional Collaboration, Engineer Collaboration, Design Handoff, Design Reviews, Iterating on Feedback, Product Ownership

Tools & Development: Figma, FigJam, Canva, Miro, Notion, Trello, HTML, CSS, Webflow, Google Suite, Adobe Creative Suite, Slack, Figma Make, Claude, Gemini, ChatGPT

PROFESSIONAL EXPERIENCE

Design Manager | Develop for Good | May 2026–Aug 2026

- Led designers and engineers through the product lifecycle, partnering with nonprofit stakeholders to gather requirements, understand user needs, scope solutions, develop visual design and branding guidelines, and deliver a redesigned website aligned with organizational goals.
- Owned product features from discovery through high-fidelity UI, prototyping, stakeholder review, iteration, developer handoff, and design documentation.
- Built reusable Figma components, Auto Layout screens, and a scalable design system to support consistency, efficient workflows, and cross-functional collaboration between designers and engineers.
- Collaborated with engineers and annotated Figma screens to communicate design intent, evaluate implementation, and refine solutions based on technical feasibility and stakeholder feedback.

Clinical Research Coordinator | Pacific Treatment & Research Center | Apr 2024–Sep 2025

- Managed complex, highly regulated workflows across multidisciplinary stakeholders, translating protocol requirements and participant needs into clear processes, documentation, tracking systems, and workflow improvements.
- Coordinated participant recruitment, screening, scheduling, vendor management, expenses, and cross-functional communication while balancing competing priorities and strict protocol timelines.
- Maintained detailed regulatory documentation and progress trackers, ensuring data and deliverables remained accurate, current, and aligned across teams.
- Led team meetings, created SOPs and study marketing materials, and facilitated training to improve process consistency and internal communication.

Research Associate | UC San Diego Health | Jun 2020–Apr 2024

PRODUCT DESIGN PROJECTS

Portfolio: lalinozyazgan.com

- Designed responsive web and mobile experiences from requirements discovery through establishing information architecture and user flows, wireframes, high-fidelity UI, and interactive prototyping.
- Applied usability feedback, accessibility, and responsive design principles to simplify complex workflows and create intuitive user experiences.
- Leveraged AI tools including Figma Make, Claude, and ChatGPT to accelerate ideation, wireframing, research synthesis, prototyping, and design iteration.

EDUCATION

UX Design Professional Certificate | UC San Diego Extended Studies | June 2026

Google UX Professional Certificate | Coursera | June 2025

B.S. Clinical Psychology, B.A. Ethnic Studies | UC San Diego | June 2020
