

UNITING TO ENSURE NO VETERAN STANDS ALONE

Face the Fight® envisions a future where every veteran and those who stand beside them are celebrated for their strength, backed in tough times, and never left to fight alone.

Face the Fight is a national initiative with a mission to break the stigma surrounding suicide in the military and veteran community by fostering honest conversations rooted in support and hope. **Face the Fight seeks to dramatically reduce veteran suicide by 2032, empowering communities with the tools they need to support those who've served.**

Backed by more than 300 coalition members across sectors, this growing movement is built on one powerful belief: that no veteran should ever face life's challenges alone – and together, we can build a future where every veteran feels seen, supported, and valued.

FACING THE FACTS*

140K+

Over 140,000 veterans have died by suicide since 2001.

60%

The veteran suicide rate is 60% higher than the national average.

#2

Suicide is the second leading cause of death among veterans under 45.

*With our collective impact,
we can create a future
where no veteran
faces this fight alone.*

OUR APPROACH

Through our coalition, philanthropic grantmaking and a robust public awareness campaign, Face the Fight is taking meaningful steps to ensure that no veteran, family member, caregiver, or survivor faces the risk of suicide alone – where mental health stigma is eliminated and compassionate, life-saving support is always within reach. We are investing in proven interventions, deepening collaboration, expanding frontline training and tools, and fostering community-driven solutions to prevent veteran suicide.

OUR IMPACT

Face the Fight is making significant strides in addressing the urgent issue of veteran suicide through raising awareness and reducing stigma with a focus on sustaining and scaling interventions proven to reduce suicide. Our Scientific Advisors utilize a custom dynamic data model to measure the impact of our philanthropic investments and guide real-time strategy. These efforts are making a tangible difference in the lives of service members, veterans, their families, caregivers, and survivors.
