EXPANDABLE TOUCHDOWN MAKES YOUR BUSINESS GROW

Every business is unique. Whatever you do, an Expandable is waiting to enhance your business.

- ✓ **Setup in 15 minutes** by a single person
- ✓ Available in **38 ft & 53 ft**
- ✓ **More than double the square area** when expanded
- ✓ **850 square feet** of floor space

Innovative and Customizable Expandable Touchdown

The Expandable Touchdown features revolutionary technology that retracts the trailer's wheels to the back, preserving low step-in height and optimal interior space. This innovative design is available in both the Edge and Octagon shapes, providing versatile and aesthetically pleasing solutions. Fully customizable, the Expandable Touchdown ensures that both functionality and modern design are maintained for various needs and preferences.

EXPANDABLE TOUCHDOWN SHAPES

Octagon shape

The octagon shape, with its eight converging sides, embodies a perfect blend of symmetry and uniqueness. Its balanced yet distinct form captures attention from every angle

Edge shape

The edge shape, sharp and dynamic, encapsulates modernity in its purest form. Its crisp lines and contemporary angles redefine the essence of visual aesthetics.

Transport or Event mode

The Expandable Touchdown trailers are designed for seamless transition between transport and event modes. During transport, the trailer's wheels are retracted to ensure a compact and streamlined form, facilitating easy and efficient travel. Upon arrival, the trailer can be quickly expanded to event mode, providing ample interior space and an optimal setup for various activities. This dual-mode functionality ensures versatility and convenience for any event or transport need.
