Touchdown 53ft

Spec Sheet

Specifications

Allow us to introduce you to the Expandable Touchdown – our most groundbreaking design in a large 53 ft exterior. Showcasing a revolutionary new system, the Expandable Touchdown can fully lower to the ground without compromising interior space. Operated by the intuitive built-in control panels on either side, the wheels retract to the back of the unit with a rail system to create more space inside.

With its automatic levelling system, retractable axle bogie, and low step-in height, the Expandable Touchdown introduces the revolutionary Touchdown system for maximum user-friendliness. Every Expandable unit is easy to operate and can be set up by any one person in just 15 minutes. It is fully customizable and ensures a short delivery time by using modular elements.
