WE DO NEXT-GEN PREP LIKE NO OTHER

Blueprint Co. partners with NYC schools to deliver STEM programs, teacher development, and curriculum that fit real schedules, real students, and real budgets. We are practitioners – not just facilitators. We have designed operations, led teams, and built systems that work under pressure. That same rigor comes into every school we work with.

FOR EDUCATORS

STEM SKILL CONFIDENCE AND PREPARATION

We train educators to teach with data confidently – practical skills, real classroom application, no tech background required. Our PD gives teachers the data skills their students need them to have – practical, relevant, and ready to use Monday morning.

FOR STUDENTS

STUDENT RESUME & PORTFOLIO-BUILDING

Students leave our programs with something to show – e.g., dashboards, presentations, and projects they built themselves. College-ready. Career-ready. Proof in hand.

FOR STUDENTS

FUTURE-READY WORKPLACE READINESS

We connect what students learn to where the workforce is going. Data literacy, AI fluency, and professional communication – skills employers are asking for right now.

FEATURED

BOOST STUDENT ENGAGEMENT

- ✓ Culturally-responsive
- ✓ Rigorous and scaffolded
- ✓ Builds future-ready skills
- ✓ Available as a direct service program, curriculum-only, or a hybrid

+ DATA ANALYTICS

By Blueprint Co.

HOW IT WORKS

1

CHOOSE AN OPTION

Tell us what you need – student programs, teacher PD, curriculum, or all three. We work with your timeline and budget.

2

SELECT TIMEFRAME AND OPTIONS

Whether you're doing semester, end of year or planning for September – we'll confirm what's possible and what makes sense for your school.

3

CONFIRM DETAILS

We send a clear scope of what we'll deliver, when, and how. No surprises.

4

START

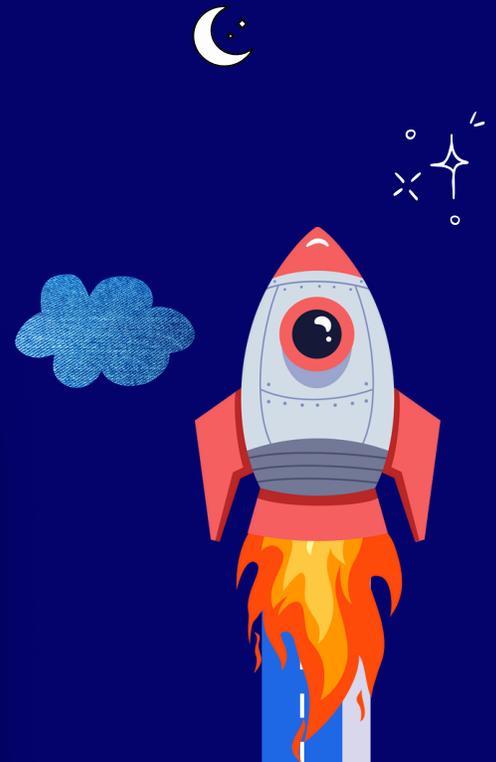

We show up. Blueprint-facilitated or handed off to your team. Your choice.

OUR MENU

Choose what fits your school — or contact us to tailor experiences.

We work within your existing program structure, schedule, and budget. Hands-on or hands-off. Your call.

A. PROFESSIONAL DEVELOPMENT

1. Data Analytics for Non-Data Teachers
2. Data Analytics Bootcamp for Teachers
3. Embedding AI Without Losing Critical Thinking
4. Teaching Critical Thinking in an AI World
5. Teacher Mastermind for Educators Who See What's Coming

B. STUDENT PROGRAMS

1. Data Analytics Workshop — 1, 3, 5 Session Series
2. Data x Fortnite — Data Skills Through Gaming
3. Student Leadership in Data and Technology — Community Research Challenge
4. STEM Bootcamp (semester, summer, or intensive format)
5. Semester-Long Data Analytics Program
6. AI Foundations for Students

C. WORKSHOPS & MATERIALS

Student Books and Workbooks

1. Data Analytics Student Workbook
2. AI Exploration Student Workbook
3. Community Research Student Handbook
4. Dataset Bundle (digital or print-ready)

Instructor Resources

5. Facilitator Guide (any program)
6. Lesson Plans and Student Activities
7. Assessment and Rubric Pack

Add-Ons

8. Live Kickoff Session for Staff
9. Live Events (e.g., student fairs, showcases)

MAX FUTURE-READINESS

Students who had never presented before stood up and shared data dashboard solutions they designed themselves. Their teacher called it transformative. That is what Blueprint delivers – not just content, but confidence.

Data skills that translate

Student-centered learning

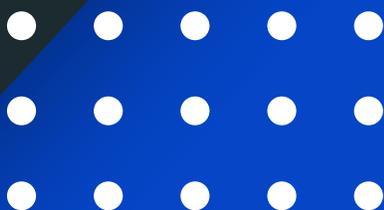

Hands-on learning

DON'T LET YOUR BUDGET EXPIRE UNUSED

Whether you have budget to use before the year ends or you are building your program lineup for next school year, we make it easy to get started. We work within your schedule, your structure, and your goals. No complicated onboarding. No rigid packages. Just reach out and we will take it from there.
