BUILT TO ENDURE, DESIGNED TO INSPIRE

At the intersection of luxury design, sustainability, and craftsmanship, Haven transforms spaces into personal sanctuaries.

Haven is thoughtfully curated to elevate interiors and exteriors, offering colors, textures, and finishes that are crafted responsibly and designed to endure for generations.

DESIGNED FOR LIVING – MADE TO LAST

Each collection is designed with timeless elegance that transcends fleeting trends, blending contemporary refinement with enduring craftsmanship. Haven ensures that beauty and sustainability live in harmony, honoring both your home and the environment. Whether your vision leans toward sleek modern minimalism or the timeless character of classic design,

Haven adapts effortlessly, providing a versatile foundation for architectural expression. With visible natural grain and subtle tonal variation, every surface feels authentic, tactile, and deeply connected to nature—transforming your home into a true sanctuary of comfort, sophistication, and refuge.

MODERN AND HERITAGE COLLECTIONS

For architects, designers, and homeowners who seek both beauty and resilience. Within Haven, the Modern and Heritage collections deliver distinct aesthetics, enduring performance, and exceptional craftsmanship.

HAVEN MODERN

Elegant and refined wood selections with clear grain, perfect for modern applications and designs.

Offers contemporary profiles, clean lines, and versatile finishes that align with modern architectural styles.

Provides consistency in tone and texture, giving projects a cohesive, polished feel.

Flexibility to match personal taste, whether minimalist, natural, or dramatic.

HAVEN HERITAGE

Richly textured and knotty for an authentic, rustic aesthetic.

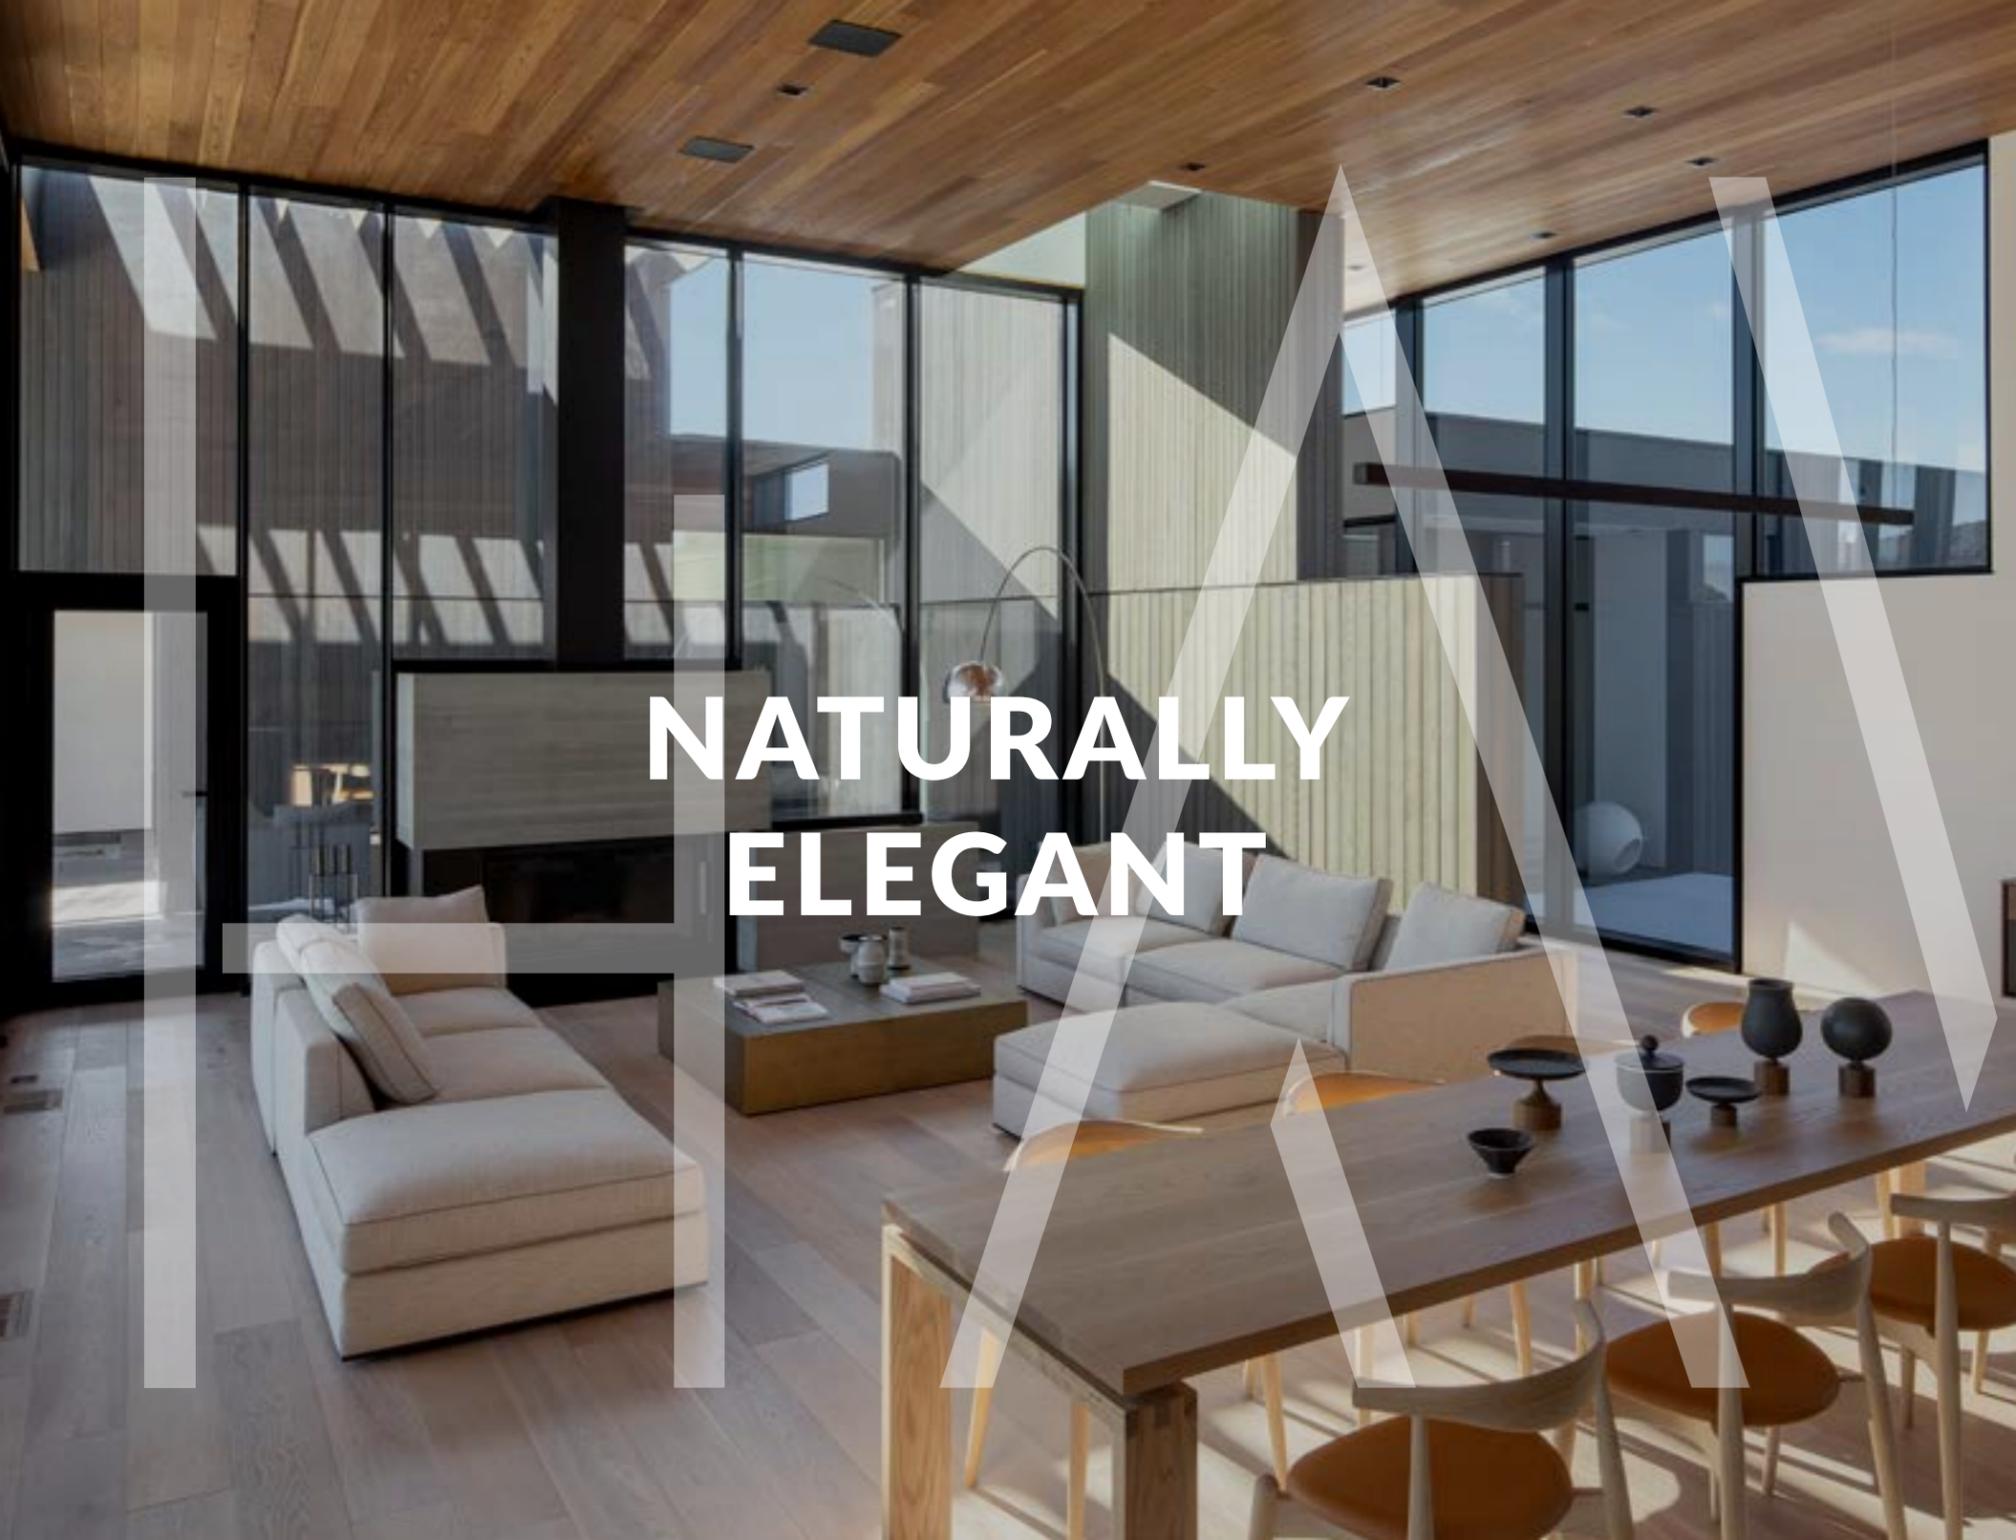

Designed for permanence and authenticity, ideal for traditional architecture, or luxury homes seeking a classic look.

Showcases the natural character of the wood, highlighting grain patterns and depth of color.

Offers an authentic, high-end look that feels handcrafted and works seamlessly with stone, brick, and classic architectural materials.

CUSTOMIZATION AT YOUR FINGERTIPS

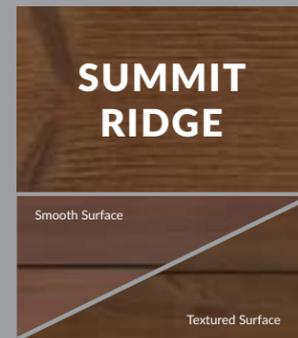

Every product is meticulously designed for high-end applications.

Redefine how you experience wood—not just as a material, but as a lifestyle statement rooted in authenticity and connection. Haven Modern and Heritage collections, and variety of prefinished offerings, highlight more than distinctive features and color. Collections that elevate both interiors and exteriors with colors and textures crafted responsibly and designed to last for generations.

HAVEN PREFINISH COLOR OPTIONS

HAVEN by OrePac offers the full solution from collection, species, texture, and color for your finished look.

A sun-kissed wood tone blending honey gold with soft amber.

Weathered elegance of wood worn by nature.

Medium caramel tone creating warmth while maintaining neutrality.

Deep, earthy wood tones infused with warm hints of burnt sienna, russet, and char.

Dark wood tone infused with slate and subtle, charcoal hues.

Finishing colors vary by wood texture: smooth surfaces appear lighter, textured surfaces appear darker. For accurate representation, consult a sales representative or use the Marketplace Configurator

FIRE RATED PRODUCTS

What is FRTW?

Fire-Retardant-Treated Wood (FRTW) gives you the natural beauty of real wood with the added confidence of built-in fire protection. Each board is pressure-treated with advanced fire-retardant technology that helps slow flames, reduce smoke, and protect what matters most.

Why Does This Matter?

Haven products are treated and labeled for exterior service to meet or exceed IBC 2303.2 which is suitable for WUI zones. Our best-in-class product exceeds ASTM E84 and ASTM E2768 requirements and has passed accelerated weathering to meet and exceed ASTM D2898.

COMPLIANCE

IBC 2303.2	ASTM E2768 (E84 30-minutes)
IWUC 503.2	ASTM D2898 ("800-inch rain")
US Navy QPL MIL-L-19140E	CAL FIRE #2520-1450:0502

For more information regarding Haven FRTW, and to order samples contact an OrePac representative here.

OREPAC IS YOUR COMPLETE SOLUTION

OrePac offers a comprehensive bundling solutions program designed to provide everything you need to efficiently complete your next high-end construction or renovation project. OrePac provides a complete range of solutions of top-quality building materials and systems that work in harmony to streamline the

entire build process. By bundling these products together, OrePac simplifies procurement, reduces waste, and enables you to complete projects more quickly without compromising on quality or style. These products include weatherization, specialty wood and timbers, decking, railing, doors, and millwork.
