ABOUT ME

I am a versatile dancer and dance teacher, mainly show, jazz and contemporary dance. I have worked as a dance teacher and choreographer for several years in Southern Finland. I am currently studying to be a dance teacher at Oulu University of Applied Science

As a pedagogue, I am energetic, approachable and comprehensive. In classes, I strive to create a safe atmosphere where everyone can develop and grow along their own path. I want my teaching to support the child's holistic growth path, and I want to provide a good foundation for a healthy life.

I have gathered a lot of competition experience on national and international competition stages in solo, duo and group category, in which I still make an impact.

My goal for the future is to act as an influencer in a broad and versatile field in the field of dance
