

### Spanish Scheme of Work:

#### EYFS, Year 1 and Year 2

Spanish is currently only taught in KS2 on a weekly basis using the Language Angels scheme. However, there is provision for language learning throughout EYFS and KS1 through a number of different activities. Exposure to a range of languages at this early stage will lay the foundations and instill curiosity and enthusiasm for further language learning in KS2.

Throughout EYFS and KS1, children will be exposed to language learning in the following ways:

- Songs and rhymes and dual language books
- Greetings (displays, assemblies, register)
- Classroom language and instructions
- Labeling of classroom objects and key areas around the classroom and school
- Language displays to celebrate their language learning
- Colours to label objects

Different languages can be explored in these early years to engage and interest the children and begin to equip them with language learning skills they will need as they progress through into KS2. It is important that we ensure EAL children are given the opportunity to share and celebrate their mother tongue language with their peers.
