Set directly on Bali's west coast, BALI BEACH GLAMPING is surrounded by ocean, open sky, and wide beaches. The environment is intentionally quiet and unprogrammed – allowing retreat leaders to shape the experience without distraction.

A CLIFFTOP RETREAT BY INTANAH

An Elevated Clifftop Setting For Transformational Retreat Experiences

GLAMP NUSA offers a rare sense of elevation, raw beauty, and perspective – a place where groups step out of the familiar and into something elemental, expansive, and quietly powerful.

Perched high above the ocean on the cliffs of Bali's southeast coast, GLAMP NUSA is surrounded by vast horizons, dramatic skies, and the constant presence of sea and wind. The setting naturally shifts attention outward and inward at the same time – creating space for insight, clarity, and transformation.

The environment is intentionally immersive and slightly untamed – not polished, not overdesigned – allowing retreat leaders to work with the landscape as part of the experience itself.

This is not a place to slow down. It is a place to see differently, think bigger, and return changed.

DESIGNED FOR GROUP IMMERSION

An Environment That Shifts Perspective

The entire site is offered on an exclusive-use basis, creating a focused and immersive setting set apart from everyday environments. This allows retreat leaders to work with the landscape itself – using height, horizon, and elemental surroundings to shape energy, rhythm, and perspective.

Rather than encouraging stillness alone, the setting naturally invites clarity, insight, and renewed outlook. The dramatic surroundings support experiences that aim to create shift – in thinking, direction, or personal understanding.

Whether centred on leadership, transformation, creative breakthrough, or deep personal inquiry, the environment supports retreat work that values perspective, courage, and meaningful change.

Each retreat unfolds as a private experience, allowing organisers to guide intensity, pacing, and structure in a way that suits their work. The setting holds the group away from routine, creating space for reflection that feels expansive rather than enclosed.

ACCOMMODATION

Elevated Tented Suites Designed For Pause

Accommodation at GLAMP NUSA combines comfort with a strong sense of place, offering elevated tented suites that open toward expansive ocean views and wide horizons. The design prioritises immersion in the landscape, allowing guests to feel both sheltered and connected to the dramatic natural surroundings. Each suite provides privacy, quality bedding, and ensuite bathrooms, delivering refinement without removing the sense of being in a remote and elemental environment.

40 tents in total, accomodating 100 guest, with up to 15 extra beds available across Deluxe and Family tents.

TOGETHER

Shared Moments, Open Horizons

A collection of open, thoughtfully positioned spaces supports gathering, reflection, and shared experience. From ocean-facing dining areas and relaxed lounge settings to wellness and treatment spaces, each environment is shaped as much by horizon and light as by design.

Rather than enclosed rooms, the spaces remain connected to sky, sea, and air, allowing the natural setting to influence the tone and rhythm of the retreat. This creates an atmosphere that feels expansive yet grounded, where group time unfolds with a sense of ease and perspective.

ACTIVITIES & EXPERIENCES

Time, Shaped By Height And Horizon

From sunrise yoga on the clifftop to cliffside romantic dinners, curated BBQ dinners, and bonfire nights under wide skies – days at GLAMP NUSA move at the pace of the horizon, each moment simply another way to stay close to the elements and each other.
