

Joe Tucker, CISSP, MSCSIA

Founder & Principal Security Architect, Emry Networks

Manchester, NH and Jacksonville, FL · emrynetworks.com

Short bio (50 words)

Joe Tucker, CISSP, MSCSIA, is the founder and principal security architect of Emry Networks, a managed IT, cybersecurity and compliance firm for regulated small and midsize businesses. He built Emry's Compliance-First, Defensible IT methodology, which aligns live systems with frameworks such as CMMC, NIST SP 800-171 and HIPAA.

Full bio

Joe Tucker is the founder and principal security architect of Emry Networks LLC, headquartered in Manchester, New Hampshire, with an office in Jacksonville, Florida. He holds the CISSP certification from ISC2 and a Master of Science in Cybersecurity and Information Assurance (MSCSIA).

Drawing on that background, Joe built Emry's Compliance-First, Defensible IT methodology: security and compliance are proven inside the systems a business actually runs, not only in its policies. Emry Networks works with regulated organizations nationwide, including defense suppliers and manufacturers, healthcare and dental practices, CPA firms, wealth advisors and law firms, across frameworks including CMMC, NIST SP 800-171, HIPAA, SOC 2, ISO 27001, PCI DSS and HITRUST.

Expert topics

- CMMC 2.0 and NIST SP 800-171 for small defense suppliers, including SPRS scoring and False Claims Act exposure
- HIPAA Security Rule risk analysis for medical and dental practices
- FTC Safeguards Rule and IRS Publication 4557 WISPs for CPA and tax firms
- SEC Regulation S-P incident response and vendor oversight for RIAs
- Ransomware readiness, incident response and backup recovery for SMBs
- Choosing and auditing a managed IT or security provider
