

ALKORPLUS CLEANER⁸¹⁰⁴⁴

Cleaner for RENOLIT ALKORPLAN and
RENOLIT ALKORTEC membranes

PRODUCT DESCRIPTION

Cleaning of welding areas, removal of building dirt and stains (bituminous products, adhesive residue, etc.) during installation of **RENOLIT ALKORPLAN** and **ALKORTEC** membranes. The ALKORPLUS Cleaner is not to be used as a general membrane cleaner.

CHARACTERISTICS

Appearance	Liquid
Colour	Colourless, transparent
Density	0,9 g/cm ³
Flashpoint	-4 °C
Consumption	10 - 50 g/lm seam joint depending on the degree of soiling.
Volatile organic compound (VOC) content	100 %

INSTRUCTIONS FOR USE

- Wearing protective gloves, apply ALKORPLUS Cleaner on a soft and clean cloth. Rub the wet cloth on the area to be cleaned and wipe dry with a second soft and clean cloth. Remove the dirt in one direction, away from the overlap. Persistent soiling may require repeating the above operation.
- Allow the cleaner to evaporate completely before starting hot air welding.
- After use close the tin immediately.
- Do not pour ALKORPLUS Cleaner directly on the **RENOLIT ALKORPLAN** or **ALKORTEC** membranes.

CAUTION: ALKORPLUS Cleaner will remove the lacquer coating from lacquered **RENOLIT** membranes and should only be used as specified.

PACKAGING

Type	Content	Packaging unit
81044-001	1 litre	6 tins / box LQ
81044-002	5 litre	tin

STORAGE

- Keep away from heat and sources of ignition.
- Keep away from direct sunlight.
- Keep only in the original container in a cool, well ventilated place.
- Shelf life: min. 12 months in original unopened packaging.
- Refer to the text on the label and take into consideration the Safety Data Sheet.

TRANSPORT

- Proper shipping name: Ethyl Acetate
- Transport hazard class 3 PKg Gr. II - UN Nr: 1173
