

Study Plan

6251Q Master of Information Technology (coursework) – Semester 1 2026/27 intake

Conversion Units

Core Units

Academic calendar Year 1				
Semester 1, 2026/27	CITQ1003: Introduction to Cybersecurity	CITQ1401: Computational Thinking with Python	CITQ1402: Relational Database Management Systems	PHIQ4100: Ethics and Critical Thinking
Semester 2, 2026/27	CITQ2002: Systems Programming	CITQ4009: Fundamentals of Data Science	CITQ4403: Computational Modelling	CITQ5507: High Performance Computing
Academic calendar Year 2				
Semester 1, 2027/28	CITQ4401: Software Requirements and Design	CITQ4404: Artificial Intelligence and Adaptive Systems	CITQ5505: Agile Web Development	CITQ5508: Machine Learning
Semester 2, 2027/28	CITQ5017: Deep Learning	CITQ5206: Information Technology Capstone Project	CITQ5501: Software Testing and Quality Assurance	CITQ5503: Cloud Computing

Notes

- Course details, including course overview, structure, and rules can be found in the Handbook: <https://www.handbooks.uwa.edu.au/>.
- All students who enrol in a course at UWA India must enrol in and successfully complete the Academic Conduct Essentials module (the ACE module) and Communication and Research Skills module (the CARS module) within the first teaching period (semester/trimester) of their enrolment:
 - AACE4000 Academic Conduct Essentials.**
 - CARS4000 Communication and Research Skills.**
- A standard full-time study load is four units per semester. All units have a value of six points unless otherwise stated. To check that you're on track to meet your course requirements, get your study plan checked by the Student Experience Team. Information in this study plan is correct at the time of publication and is subject to change from time to time. The University reserves the right to change the unit availability and unit rules, please refer to the Handbook each semester.

Next steps

Enrol and plan your timetable via the MyCamu Student Portal: <https://student.india.uwa.edu.au/>.
