T(P)GS-0008TD

8 GE (PoE) M12 Unmanaged Ethernet Switch

OVERVIEW

Lantech T(P)GS-0008TD is an 8-port 10/100/1000 Base-T unmanaged Ethernet switch featuring 8 PoE ports (802.3at/af, PoE model) and M12 connectors. Designed for industrial rolling stock applications, it offers IP67/IP54-rated protection to withstand harsh environments. *Certified to EN50155, ITxPT, and E-marking*, ensuring compliance with world-class standards for reliability and performance.

Redundant dual 24VI/24TVI input with inrush current prevention and EN50155 verification with high ESD and polarity reverse protection ; PoE model supports up to 8 PoE at/af ports and PoE galvanic isolation

Complying with IEEE 802.3af/at standards, the PoE model to supply up to 30W per port with a total PoE budget of 80W for various IP PD devices. PoE galvanic isolation up to 1.5KVDC ensures insulation between the power input and PoE Ethernet ports, preventing cabling or grounding incidents from damaging the switch.

Sleep Mode & efficient PoE timer under Ignition-Off State

Compliant with ITxPT standards, the -IGN model features a 60-minute standby mode after ignition-off, maintaining network operation before entering sleep mode(0.048W)—preventing unnecessary reboots when power is restored.

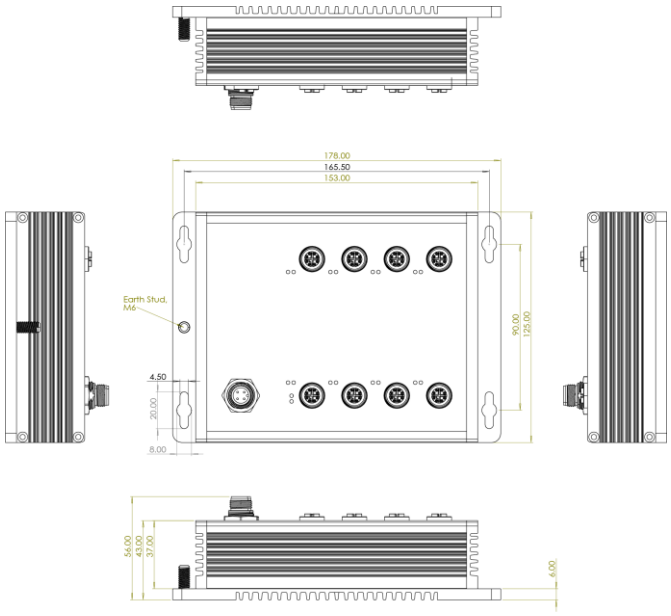

The PoE ignition model also supports a configurable PoE timer, with a default delay of 10 minutes after ignition-off.

E-marking certificate ; ISO 16750-2 P5A compliant

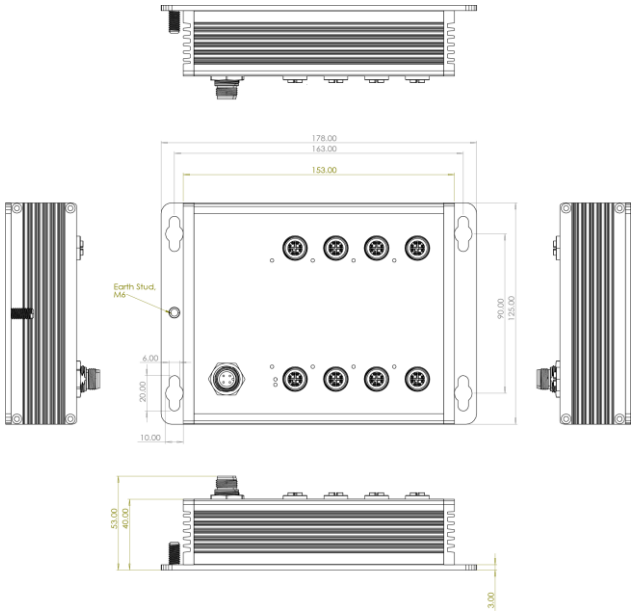

T(P)GS-0008TD features IP54 enclosure with M12 connectors for dust/water protection, compliant with EMI, safety, free fall, shock, vibration tests, and ISO 16750-2 P5A to resist motor pulse voltages, effectively minimizing the impact of high-frequency pulse voltages commonly generated by motor applications.
