

Concrete Planters

Sculptural bowl planters with a quiet, architectural presence and a refined mineral finish in pale mushroom with soft gray undertones. Constructed from GFRC (glass fiber reinforced concrete), they are exceptionally durable while remaining lighter than traditional concrete. Offered in four sizes, the planters can be used individually as singular sculptural forms or grouped together to create layered compositions of varying scale. Suitable for topiary, specimen trees, shrubs, or low planting arrangements.

Dimensions (from largest to smallest):

(01) 60" Diameter x 27" H

(02) 48" Diameter x 22" H

(03) 38" Diameter x 18" H

(04) 28" Diameter x 13" H

Material

Glass Fiber Reinforced Concrete
