

## Gallin Table

The Gallin Table is a monumental communal outdoor dining piece designed as one continuous architectural form, with integrated bench seating that encourages gathering in a more informal and connected way. Constructed from solid Itauba wood, the table pairs a restrained, low-slung profile with exposed joinery and substantial proportions, giving the piece a quiet sense of permanence and utility.

Naturally dense and highly durable, Itauba is prized for its rich tonal variation, tight grain, and exceptional performance outdoors, allowing the Gallin Table to age beautifully over time.
