

# Jakkrit Sapsiridet

Product Designer

Product Designer with ~5 years of experience. I don't just design screens; I build systems. From complex dashboards to Webflow websites, I bridge the gap between design and code to take projects from messy ideas to launched products.

## KNOWLEDGE AND IMMERSION

- Webflow
- Figma
- Design Systems
- Team Management
- Mentorship
- Project Management
- Adaptability
- Client Communication

## EXPERIENCE

### UX/UI Designer @ SELLSUKUKI : Full-time

- **Spearheaded Multi-Brand Design System:** Built a scalable design system from scratch using Figma Variables to support 3+ products. This unified the visual language across the ecosystem and optimized workflows for a lean developer team.
- **Strategic UI Refactoring:** Modernized legacy products like Bandscanner by transitioning to shadcn/ui. This "code-first" approach bridged the gap between design and development, significantly reducing technical debt and delivery time.
- **AI & Design Automation:** Led the Ch-Erawan project by leveraging AI tools (Relume) to accelerate sitemapping and wireframing. I am currently expanding this efficiency by exploring workflow automations (Figma/Make) to further eliminate repetitive tasks and speed up delivery.

🕒 july 2023 - Present

### Product Designer @ The Existing Company : Full-time

- **Lead Designer for Kaikong.live:** Designed the entire ecosystem for a live commerce platform—including Web App, Landing Page, and marketing assets—collaborating with Vrich on backend features like "Sale Link" to ensure seamless functionality.
- **End-to-End Webflow Development:** Designed and built responsive websites from scratch for clients like Vrich and ADASTRA AGENCY, handling everything from layout to final launch without relying on developers.
- **Mentorship & Collaboration:** Mentored junior designers through design reviews to foster growth, while managing client timelines and working with cross-functional teams to iterate solutions quickly.
- **Corporate Web Design & CEO Collaboration:** Worked directly with the CEO to redesign 'The Existing Company' official website, translating the business vision into a fully functional Webflow site.

🕒 Sep 2021 - May 2023 1 yr 10 mos

### UX/UI Designer @ Yes Web Design Studio : Full-time

- **Delivered End-to-End Client Solutions:** Designed and launched user-centric websites for key clients like Appman and Dusit Thani College and many more translating business requirements into clear site maps, user flows, and interactive prototypes using Adobe XD.
- **Technical & Developer Collaboration:** Collaborated closely with developers to ensure design feasibility within WordPress constraints, effectively balancing visual
- **Management:** Established and maintained a library of reusable UI components, which accelerated iteration cycles and ensured visual consistency across various client projects.
- **WordPress & Plugin Strategy:** Designing within the WordPress ecosystem by understanding plugin architectures. I learned to adapt designs to fit plugin constraints and collaborated with developers to customize standard plugins, ensuring the final UI looked unique and professional.
