Press Release

DA 90 Low Temperature Die Attach Adhesive Series Materials

(Albany, NY) 06/19/2017 — The DA 90 series materials are YINCAE's new low temperature die attach adhesives. The DA 90 series offers conductive and insulating options to suit a large variety of applications. These products can be cured at low temperatures (82 – 90°C) and can be used for high temperature applications (215°C for 15 years). In addition to low temperature curing, these products also offer no delamination, high reliability, and high thermal and electrical conductivity. DA 90 series die attach adhesive materials are commercially available and are currently being used for insulating and conductive die attach applications.

For more information on YINCAE's DA 90 series, or to learn more about what YINCAE offers, please email us at: info@yincae.com. You can also find more information by visiting our website at: www.yincae.com
