TIC (1y / 3y)

1.72% / 1.68%

This fund is Regulation 28 compliant and can invest in a wide variety of domestic and international asset classes (such as equities, listed property, conventional bonds, inflation-linked bonds and cash). As the fund aims to maximise returns, it will have a strong bias towards equities—typically the asset class with the highest expected long-term returns. The fund is positioned in our team's best ideas—which emanate from our bottom-up research process—and is actively managed to maximise long-term returns without assuming excess risk of loss.

RISK STATISTICS

Since inception

6.9%	0.46	0.43	26.5%	-16.3%	73.1%
Deviation vs 1.0%	Sharpe vs -0.21	Sortino vs -0.27	Max gain vs 53.5%	Max DD vs -0.8%	% positive vs 97.8%

TER (total expense ratio) = % of average NAV incurred as charges, levies and fees for the rolling one and three-year period to 30 June 2026. A higher TER does not necessarily imply a poor return.

TC (transaction costs) are unavoidable costs incurred in administering financial products. Also calculated on rolling one and three-year periods to 30 June 2026.

Sharpe ratio: annualised return less risk-free rate, divided by standard deviation of returns. Higher is better.

Sortino ratio: similar to Sharpe but only penalises downside (harmful) volatility. Higher is better.

Performance is quoted from Morningstar at month-end on a NAV-to-NAV basis for a lump sum investment using Class A Net Asset Value (NAV) prices with income distributions reinvested (income is reinvested on the reinvestment date). NAV refers to the value of the fund's assets less the value of its liabilities, divided by the number of units in issue. Performance figures are quoted after the deduction of all costs incurred within the fund. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. All performances are annualised (ie the average annual return over the given time period). Actual annual figures are available on request from Client Service.

Policy objective The fund adhered to the policy objective as stated in the Supplemental Deed

Additional information Please read this quarterly investment report in conjunction with the minimum disclosure document

Disclaimer

The Camissa unit trust fund range is offered by Camissa Collective Investments (RF) Limited (Camissa), registration number 2010/009289/06. Camissa is a subsidiary of Camissa Asset Management (Pty) Ltd [a licensed FSP], the investment manager of the unit trust funds. Camissa is a member of the Association for Savings and Investment SA (ASISA) and is a registered management company in terms of the Collective Investment Schemes Control Act, No 45 of 2002.

Fees and performance Unit trusts are generally medium- to long-term investments. The value of units will fluctuate, and past performance should not be used as a guide for future performance. Camissa does not provide any guarantee either with respect to the capital or the return of the portfolio(s). Foreign securities may be included in the portfolio(s) and may result in potential constraints on liquidity and the repatriation of funds. In addition, macroeconomic, political, foreign exchange, tax and settlement risks may apply. However, our robust investment process takes these factors into account. Unit trusts are traded at ruling prices and can engage in scrip lending and borrowing. Exchange rate movements, where applicable, may affect the value of underlying investments. Different classes of units may apply and are subject to different fees and charges. A schedule of the maximum fees, charges and commissions is available upon request. Commission and incentives may be paid, and if so, would be included in the overall costs. Camissa has the right to close the portfolio to new investors to manage it more effectively in accordance with its mandate. Additional information is available free of charge on our website or from Client Service.
