Date of issue: 15 September 2026

Camissa Global Asset Management

Fund objective

To achieve a total portfolio return that is better than the world equity market, over the long-term.

Who should consider investing

Investors who are in their wealth accumulation phase, seeking exposure to equity markets. A typical investor would be able to withstand short-term market fluctuations in pursuit of maximum capital growth over the long-term.

Camissa Global Equity Fund

Minimum disclosure document

Date of issue: 15 September 2026

About this fund

This fund aims to be fully invested in international equities and is positioned in our team's best ideas, which emanate from our bottom-up research process. This usually entails significant deviations from market cap-weighted benchmark positions. Active portfolio management is incorporated in search of an optimal risk/reward balance and consistent positive alpha.

Pricing: The Fund is valued and priced at 23:00 (Irish time) on each dealing day using the last traded price on each relevant market. The deadline for receiving instructions is 14:00 (South African time) each business day to ensure same day value. Forward pricing is used.

Camissa Global Equity Fund is a sub-fund of Camissa Global Asset Management ICAV. This Fund is managed by Sanlam Asset Management (Ireland) Limited. The Fund and the Manager are authorised in Ireland and regulated by the Central Bank of Ireland.

The Camissa Global Equity Fund is approved for Marketing in South Africa under S65 of the Collective Investment Schemes Control Act of 2002.

No performance fees are charged on this portfolio.

Sharpe ratio: annualised return less risk-free rate, divided by standard deviation of returns. Higher is better.

Sortino ratio: similar to Sharpe but only penalises downside (harmful) volatility. Higher is better.

Performance is quoted on a NAV-to-NAV basis for a lump sum investment, with income distributions reinvested (income is reinvested on the reinvestment date). Performance figures are quoted gross of management fees. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. All performance figures are annualised (ie the average annual return over the given time period). Actual annual figures are available on request. Please note that market and exchange rate fluctuations may affect the value, price or income of investments.

Unit trusts are generally medium to long-term investments. The value of units will fluctuate and past performance should not be used as a guide for future performance. Camissa does not provide any guarantee either with respect to the capital or the return of the portfolio(s). In addition, macroeconomic, political, foreign exchange, tax and settlement risks may apply. However, our robust investment process takes these factors into account. Unit trusts are traded at ruling prices and can engage in scrip lending and borrowing. Exchange rate movements, where applicable, may affect the value of underlying investments. Different classes of units may apply and are subject to different fees and charges. Camissa has the right to close the portfolio to new investors in order to manage it more effectively in accordance with its mandate.

Additional information: This is a marketing communication. This is not a contractually binding document. Please refer to the prospectus of the UCITS and to the Key investor information and do not base any final decision on this communication alone.
