

Mobile Security Box

Real-Time Video Defense System
Data Sheet

Designed for compact spaces, the SiteStream Security Box delivers reliable, fixed-mount surveillance for urban corners, narrow utility paths, and building-fixed applications. This discreet unit features high-definition, dual-camera optics with 25X long-range zoom to capture critical details from a distance.

Housed in a weather-sealed casing with a robust battery backup for 24/7 reliability during power interruptions, it acts as a proactive guard using bright blue LED strobes to deter intruders instantly. Connected via a high-gain cellular uplink, the system streams encrypted, real-time video directly to the cloud for total situational awareness from anywhere in the world.
