The Intimate Wedding Experience
at The Singing Heart Estate

The Estate & Philosophy

We're so glad you're here and exploring The Singing Heart Estate as a place to celebrate your wedding.

When we first imagined this space, we were inspired by the Bordeaux region in France. Its arched windows, elegant orangeries, layered garden rooms, and calm, spacious interiors. We were drawn to colours and textures that feel relaxing, timeless, and quietly beautiful.

This is a private family estate created to host a small number of weddings each year.

Designed for couples who value intimacy, beauty, and meaning, the estate offers a setting where your entire wedding takes place in one location, surrounded by gardens, architecture, and quiet preparation spaces.

With four getting-ready rooms, ceremony locations throughout the gardens, and reception within the Orangerie, every part of your day is thoughtfully held within the estate.

It is a privilege for us to host other love stories within this space, and to walk alongside couples as they begin this next chapter of their lives.

We look forward to welcoming you.

THE SINGING HEART ESTATE

THE ESTATE EXPERIENCE

A cultivated anthology of lush garden rooms, each lovingly grown and manicured into secluded intimate living art nooks. The estate boasts a collection of sculptures and a Greco-Roman fountain to accent the natural landscape and accentuate the architecture.

Our thoughtfully crafted natural ceremonial spaces, framed by olive trees, seasonal blooms and heritage eucalyptus, create the perfect setting for your garden wedding ceremony or outdoor reception.

From the rose gardens, to the wide open lawns, the estate provides infinite opportunities for photography or a stolen hushed moment.

Every wedding at The Singing Heart Estate includes exclusive private access to the property.
