designed homes. Beautifully built.**

We are a design-led construction studio
specialising in full home projects, bespoke
kitchens & bathrooms and curated interior
design;
All delivered with care, clarity
and craftsmanship.

Keynvor
Showroom

Creating with care and character

Family-run and proudly independent, Keynvor crafts spaces built to last.

A home should do more than serve a function — it should reflect the people who use it every day. Built on attentive service and skilled craftsmanship, Keynvor takes a considered approach to design, shaping spaces that balance practicality with comfort.

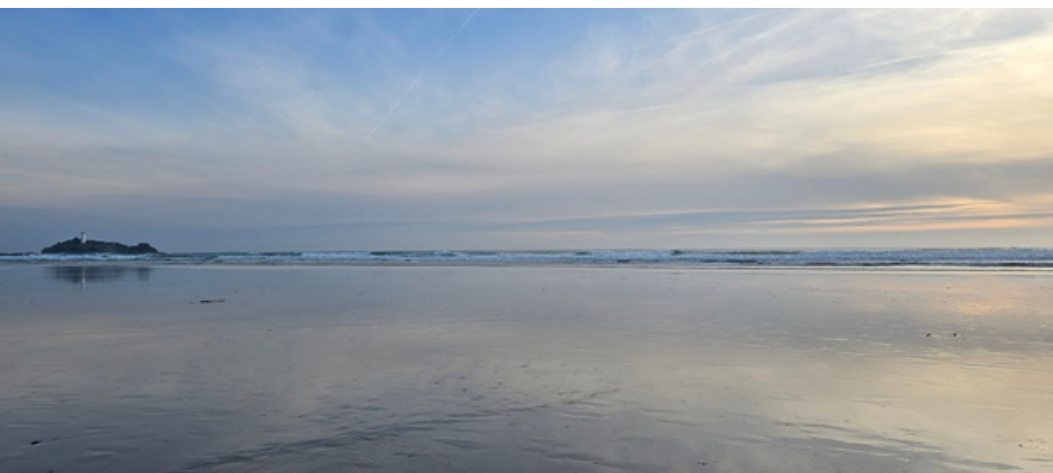

Each project starts with a thoughtful consultation to understand how the household lives, cooks, and comes together. From there, layouts, materials, and finishes are selected to suit both lifestyle and space.

Careful planning underpins every decision, from workflow and cabinetry to lighting, surfaces, and ventilation.

Projects are managed entirely in-house, from initial design through to installation.

Clients work directly with the same team throughout, ensuring consistency, clear communication, and a more personal process. The result is a home where every element feels deliberate and well resolved.

What's in a name?

A name can anchor a business to both *place* and *purpose*.

The name “Keynvor” is Cornish for ocean or main sea, reflecting the company’s roots on the Lizard Peninsula and the principles behind its work: flow and strength.

Those values shape how the team approaches every project; calm, well-managed progress underpinned by robust planning and craftsmanship. They also sit at the heart of its sister company, Keynvor Construction, which delivers new builds, extensions and renovations with a focus on transparency and collaboration from day one.

Together, construction and interior design create a cohesive offering, with each stage informed by the one before it. This alignment allows ideas to move seamlessly from structural planning through to the finished interior — reducing delays, avoiding costly rework and ensuring the end result feels considered as a whole. For clients, it means clearer decision-making, fewer handovers and a smoother route from concept to completion.

Whether you are remodelling an existing space or building from the ground up, the team can coordinate the practicalities alongside the detail.

By bringing construction insight into the design conversation early — and keeping the design intent present throughout the build — Keynvor helps maintain budgets, timelines and quality, while creating interiors that sit naturally within the architecture of the home.

Crafted kitchens with character

Thoughtfully designed rooms shaped through practical skill and clear dialogue.

Independence gives Keynvor Kitchens the freedom to work with trusted British manufacturers and local craftspeople, selecting materials for their quality, character and suitability to each space. Sustainability is approached through longevity: durable design, responsible sourcing and a commitment to interiors that stand the test of time.

Attention is paid to the details that shape everyday living — precise finishing, beautifully made cabinetry and fittings that feel considered in the hand. Success is measured not only in appearance on day one, but in how effortlessly a space performs for years to come.

Based in The Lizard, the showroom invites clients to explore materials, styles, and layouts in person, with our experienced designer on hand to offer guidance and inspiration.. Alongside bespoke In-frame kitchens, valued for their strength and traditional construction — the showroom also features collections from Mackintosh and Novus through Omega Plc, offering a considered range of contemporary and classic options.

Keynvor Kitchens works closely with homeowners, architects and designers across Cornwall and the South West, delivering interiors that feel purposeful, enduring and tailored to the people who use them.

A straight forward path from *idea* to *home*

Consultation & planning

Every full home build starts with a proper conversation. We take time to understand how you want to live, what matters most to you, and how the project needs to work financially and practically. We'll talk through your ideas, budget, and timescales, offering honest guidance so expectations are clear from the very beginning.

Design & preparation

Once the brief is agreed, we turn ideas into a detailed plan. Layouts, specifications, and finishes are carefully considered, with everything mapped out before work begins. This stage ensures there are no surprises later on and that your new home is designed thoughtfully, down to the smallest detail.

Build & management

We manage the entire build from start to finish, coordinating trusted trades, overseeing quality, and keeping the programme on track. You'll have a clear point of contact throughout, with regular updates so you always know what's happening — without needing to chase or worry.

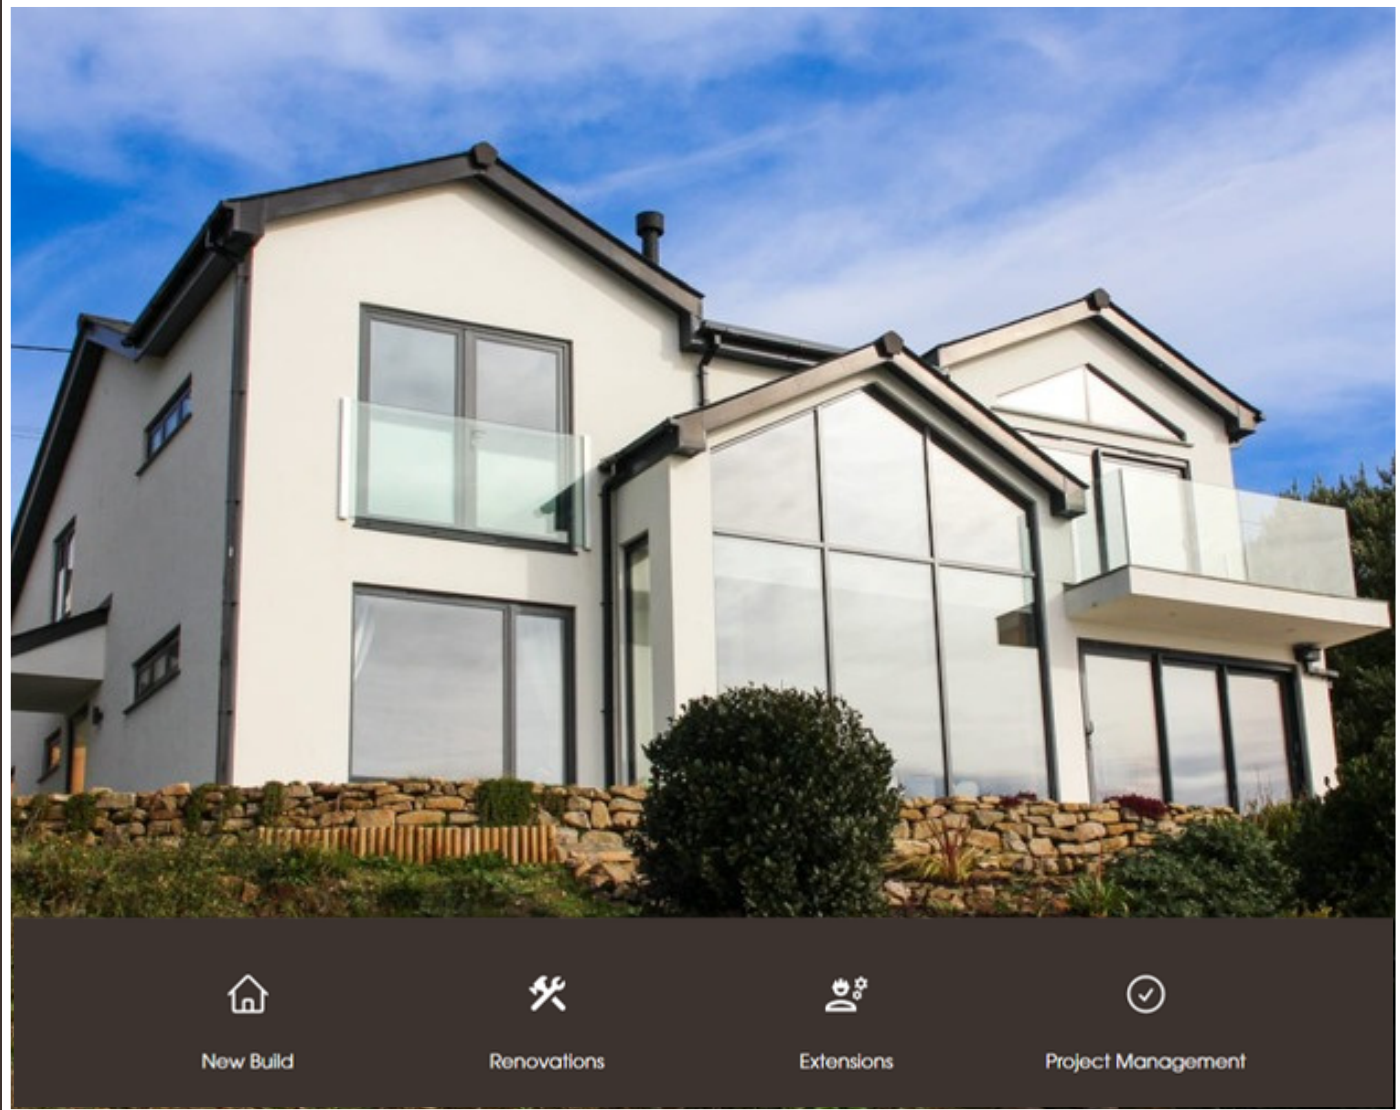

Completion & handover

As the build comes to an end, we walk through the finished home with you, checking every detail together. We make sure everything is completed properly, explain how things work, and only sign off once you're completely happy. The result is a home that's ready to be lived in and enjoyed from day one.

We bring together exceptional design, expert craftsmanship and full project management to create spaces you'll love living in.

Whether its a stunning new kitchen, a complete interior refresh or bringing your whole home vision to life - our team is here to guide you every step of the way.

Full Projects & Builds

*A single point of contract for
your entire build*

Keynvor combines construction expertise with interior design vision to deliver complex residential projects with clarity and cohesion. Our director, Kyle, brings extensive experience in construction and project management, having overseen exceptional homes across Cornwall. Our lead designer is a trained architect and interior designer, with a portfolio spanning a wide range of projects.

Working as one team, we keep the process calm, coordinated and clear. We liaise early with your architect and structural engineer to refine the building design, then manage the details that shape the finished home — from technical coordination to final specification and installation.

For construction and project management, we take an open-book approach to keep costs clear and decisions straightforward.

Let's Build your Dream home

Keynvor Construction - The Process

1. Get in touch to book an initial consultation, where we'll discuss your brief and tailor the package to your requirements.
2. We'll confirm your priorities and budget, and advise on the best route forward — including introducing trusted architects or structural engineers if needed.
3. Once the full scope is agreed, we'll provide a staged estimate so you have clear costs and an overall project budget.
4. On approval, we take a deposit to procure materials and confirm programme dates.
5. Work commences on site. Lead times vary by scope, and your project manager will share an agreed programme with regular updates.
6. Stage payments are made at pre-agreed milestones.
7. On completion, the final invoice is due once you're happy with the finished result.

*Where Design
Meet Individual Living*

Keynvor designs bespoke kitchens and bathrooms with a refined, considered approach — blending creativity, craftsmanship, and carefully sourced materials to create spaces that feel effortless to use and exceptional to live with.

Whether you're planning a kitchen, bathroom or both, we work closely with you to shape the layout, storage and detailing around how you live — from cooking and hosting zones to morning routines, wellness and family life.

We believe in intelligent design and lasting quality. From bespoke cabinetry and In-frame joinery to worktops, tiles, brassware and sanitaryware, we specify products for performance, longevity and a refined finish — with careful attention to lighting, ventilation and durability in high-use areas.

From concept to completion, we provide a fully tailored service supported by expert CAD design and a trusted supplier network. We manage the details to bring your vision to life, whether you're a homeowner, developer or contractor — ensuring every space is both beautiful and highly functional.

Kitchens & Bathrooms

Helping You Find the Perfect Fit for Every Space

Keynvor Kitchens - The Process

1. Visit our showroom for inspiration — explore displays, experience quality first-hand, and discuss ideas with a designer.
2. Book a one-to-one consultation so we can understand your brief, style and budget, whether you're starting from scratch or refining existing plans.
3. We develop your design (typically 1–2 weeks) using specialist CAD software, source pricing for appliances and worktops, and present visuals, samples and a detailed quotation.
4. Once you approve the initial estimate, we carry out a site visit to confirm measurements and any structural details before ordering your kitchen, bathroom or bespoke furniture.
5. With details confirmed, manufacturing begins. Lead times vary by scope, typically up to 8 weeks.
6. When your project is ready, we arrange delivery and coordinate installation — working with your installer or with our project manager overseeing on site.
7. Completion and handover — time to enjoy your new space.

Interior Design

KEYNVOR

INTERIORS

*Thoughtful design.
Beautifully built.*

Beyond kitchens and bathrooms, we provide a complete interior design service for your home. From a single room refresh to a full renovation or new build, we create cohesive schemes that reflect how you live. The focus is always on rooms that feel considered, connected and effortless to move through.

Every element is tailored from space planning and layouts, colour and material palettes, lighting to bespoke furniture. Rather than a one-size-fits-all approach, we design around you, balancing character with day-to-day function. Where needed, we also advise on finishes, joinery and key pieces to ensure the details feel resolved.

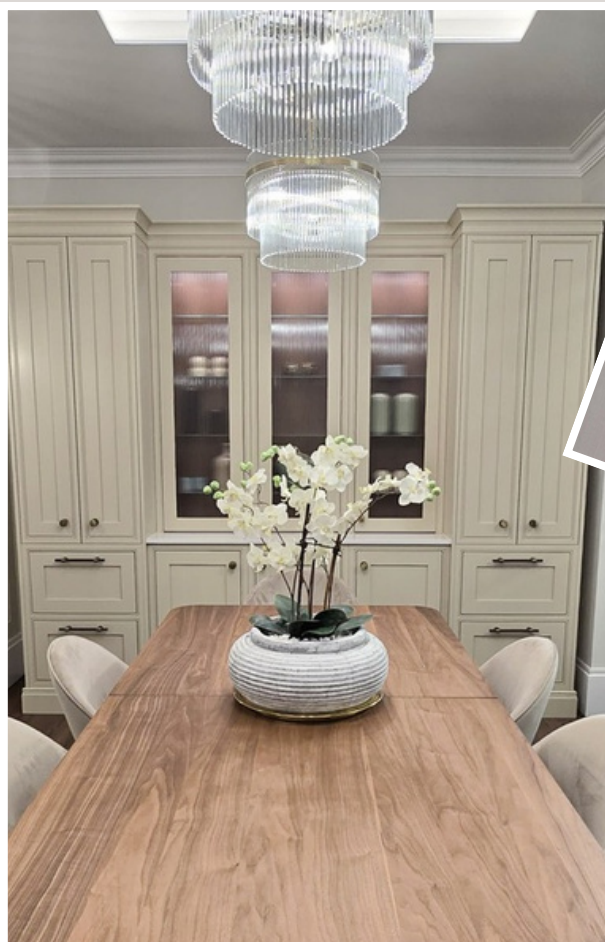

For larger projects, we work closely with architects, builders and trusted trades to keep everything aligned from concept to completion. Early involvement helps shape the overall look and feel of the home, maintaining consistency, flow and detail across every room. With clear coordination and ongoing communication, we help protect the design intent through each stage on site.

Let's Create your
perfect space

Interior Design - The Process

1. Enquire with your requirements and we'll arrange a consultation with the right member of the team.
2. We'll develop two tailored mood boards, which can include lighting, flooring or window-covering ideas, colour direction and furniture, as required.
3. We refine the detail into an agreed scheme, coordinating specifications, procurement and the supply chain.
4. We present the concept and provide a detailed quotation for review and approval.
5. Once approved, we issue an invoice to proceed with ordering and supply, and confirm lead times as they are provided.
6. Supply, delivery and completion
7. Enjoy your finished space.

Using trusted suppliers for your home

At Keynvor, we partner with a carefully selected network of trusted suppliers and craftspeople to deliver construction, kitchens, bathrooms and interior design to a consistently high standard. From structural materials and specialist trades to cabinetry, surfaces, sanitaryware and finishes, we specify products for quality, performance and longevity — ensuring every element works together as a whole.

Frequently Asked Questions

When is the showroom open?

Monday to Saturday, 10am–3pm.
Out-of-hours appointments are available by arrangement.

What areas do you cover?

We deliver, build and install projects across Cornwall.
Design-only services are available nationwide.

Can I see examples of your previous work?

Yes. You can view a selection of recent projects on our website, and we're happy to share examples that are most relevant to your style, scope and budget — just let us know what you're looking for.

Do you charge a consultation fee?

The initial consultation is complimentary. Once the scope of works is confirmed, we progress into the development stage, where the detailed design process begins.
