

## 1 MVA | 5MWh Critical Loop AC System (5100)

### LG Domestic Content DC Block, with Critical Loop controls

An LG JF2 DC block outfitted with Critical Loop's custom control systems and an EPC inverter this system can reduce generator run-times in hybrid setups, provide 1MVA peak power independent of the grid, peak-shave, and time shift when grid-connected.

1MVA| 5MWh blocks can be paired together for 20MW+ output.

### Features & Benefits

- Domestic Content, ITC Eligible
- Infinitely scalable system
- Conserves fuel in hybrid setups
- Can provide island power during blackouts
- Time-shifting for maximum energy savings
