

# Critical Loop – CLB-2000

## Utility Grade – Silent Power

Delivers up to 1 MW continuous, 1.9 MWh capacity  
Supports grid, islanded, and genset hybrid operation  
UL1741-SB and UL9540A certified.

Rapid deployment via Camlock connections  
Complies with NFPA 855 and NEC 2025.

## Features & Benefits

- Eliminates generator oversizing
- Minimizes generator emissions
- Conserves fuel
- Provides extended periods of silent power
- Reduces generator service frequency
