AMSOIL INTERIOR DETAILER - SCENT FREE

Product Code: IDNCN-EA

Effortlessly clean and protect every vehicle interior surface with a streak-free, scent-free formula that eliminates odors and blocks UV damage.

Product Description

AMSOIL Interior Detailer in the scent-free formula cleans, protects, and deodorizes every interior surface in your vehicle without leaving behind fragrance, dyes, greasy film, or streaks. It is built for drivers who want a clean cabin without the chemical smell that most interior cleaners carry.

Dashboard plastics, touchscreen displays, door trim, and center consoles take a beating from daily UV exposure, dust, fingerprints, and spills. Most interior cleaning products either leave a slick, greasy residue that attracts more dust or coat surfaces with an artificial shine that causes glare. Others rely on heavy fragrances to mask the fact that they are not actually eliminating odors. A proper interior detailer should clean, protect, and get out of the way.

MULTI-SURFACE CLEANING WITHOUT RESIDUE

AMSOIL Interior Detailer works on plastic, vinyl, rubber trim, dashes, and infotainment displays. The formulation is free from dyes and films, so it cleans and wipes away without leaving behind the greasy layer that products like Armor All are known for. Spray it on, wipe with a microfiber towel, and the surface dries to its natural, factory appearance. For stubborn grime ground into textured plastic, agitate with a soft bristle brush before wiping clean.

90-DAY UV PROTECTION

Sun exposure degrades interior plastics over time, causing fading, cracking, and that chalky, dried-out look on dashboards and door panels. AMSOIL Interior Detailer provides UV protection for up to 90 days per application. That protective barrier helps preserve the original color and texture of your dash, center console, and trim panels through months of sun exposure, whether your truck sits in a parking lot all day or your daily driver bakes in a driveway.

TRAPS AND ELIMINATES ODORS

Rather than covering up stale cabin smells with overpowering fragrance, this formula uses odor-trapping technology to capture and neutralize odors at the source. The scent-free version is completely unscented, making it a good fit for anyone sensitive to fragrances or simply tired of chemical-smelling interiors. No perfume residue, no artificial lemon cloud lingering in the cab.

STREAK-FREE ON DISPLAYS AND TRIM

Modern vehicles have large touchscreens, digital gauge clusters, and gloss-black trim panels that show every smudge and wipe mark. AMSOIL Interior Detailer uses non-streaking technology specifically designed for these surfaces. It cleans fingerprints and dust from infotainment screens and piano-black accents without hazing or streaking. For dedicated glass cleaning on windshields and mirrors, AMSOIL recommends pairing it with their Glass Cleaner for optimal results.

APPLICATION AND COMPATIBILITY

AMSOIL Interior Detailer is safe on all interior surfaces, including plastic, vinyl, rubber, and electronic displays. For vehicles with aftermarket window tint or specialty coatings, test in an inconspicuous area before full application. Available in a 16 oz. spray bottle for easy, controlled application.

Frequently Asked Questions

Q1: What vehicles and equipment can I use AMSOIL Interior Detailer Scent Free on?

AMSOIL Interior Detailer - Scent Free (IDNCN-EA) is a multi-surface cleaner designed for use across a wide range of vehicles and equipment, including auto/light trucks, motorcycles, ATVs, UTVs, snowmobiles, marine outboard vessels, PWCs, heavy-duty on-road and off-road vehicles, and agricultural equipment. It is safe for use on all interior surfaces, including plastic, trim, dashes, and displays.

Q2: Does AMSOIL Interior Detailer Scent Free provide UV protection for my dashboard and trim?

Yes, AMSOIL Interior Detailer - Scent Free provides 90-day UV protection for interior surfaces. This helps guard plastic, trim, and dashes against sun damage, fading, and deterioration caused by prolonged UV exposure. It also traps and eliminates odors while leaving a clean, non-streaking finish free from dyes and films.

Q3: What makes AMSOIL Interior Detailer Scent Free different from the scented version?

AMSOIL Interior Detailer - Scent Free is specifically formulated without any added fragrance, making it ideal for users who are sensitive to scents or prefer a completely neutral-smelling interior after cleaning. It still delivers the same powerful cleaning, odor-trapping, non-streaking technology, 90-day UV protection, and dye-free, film-free finish as the rest of the Interior Detailer line.

Q4: How does AMSOIL Interior Detailer Scent Free compare to Armor All and Chemical Guys interior cleaners?

Verified buyers have reported that AMSOIL Interior Detailer - Scent Free outperforms popular brands like Armor All, Chemical Guys, and Griot's. Unlike Armor All, it does not leave a wet film or greasy residue on dashes and plastics. It wipes away cleanly, leaving a natural, non-greasy finish. The product is rated 4.9 out of 5 stars based on 28 verified reviews.

Q5: How do I use AMSOIL Interior Detailer Scent Free to clean my car's interior?

Spray AMSOIL Interior Detailer - Scent Free directly onto the surface and wipe away with a microfiber towel. For stubborn dirt and debris, agitate with a soft bristle brush and then wipe away. For best results on glass, AMSOIL recommends using their dedicated Glass Cleaner instead. If you have aftermarket tint or coatings, spray on an inconspicuous area first to test before full application.

Q6: Is AMSOIL Interior Detailer Scent Free safe to use on car displays and touchscreens?

Yes, AMSOIL Interior Detailer - Scent Free is safe on all interior surfaces, including displays, plastic, trim, and dashes. It is free from dyes and films and uses non-streaking technology, making it suitable for infotainment screens and instrument cluster displays. However, for glass surfaces, AMSOIL recommends using their dedicated Glass Cleaner for the best results.
