

Dirt / Magnetite Separator HY-S-DM-20-S

→ Side Stream

Formerly HL Hydronics Mag-Nus

→ 1-3 days delivery

→ 1-3 hours commissioning

Ensures longevity

The Hydrun Separator Dirt/Magnetite (HY-S-DM-20-S) is a partial flow separator for hydronic , primarily designed to protect units such as HY-D and HY-PD from dirt and magnetite.

It effectively separates both particles and magnetite, helping the system to run smoothly with less wear and fewer downtimes.

The product is sold as a mandatory accessory for HY-D and HY-PD.

Energy Saving

Save energy by continuously reducing the amount of dirt and magnetite in the system.

Ensures longevity

Protect vulnerable components in the units from dirt and magnetite, thereby ensuring their service life.

360° installation

Can be installed vertically and horizontally, to facilitate installation and save space.

Easy and quick cleaning

The separator and magnet can be cleaned without being removed from the system.

Openable filter housing

Facilitates cleaning and servicing.

Warranty requirements

This product, or an equivalent approved by Hydrun, is required for the HY-D and HY-PD warranties to be valid.

Model name	HY-S-DM-20-S
Former name	Mag-Nus Dirt and Magnetite Separator
Previous item no.	HL1108
Gauss	11,000
Filtration	1000 microns
Maximum operating pressure	10 bar
Operating temperature	0-100°C
Connection	DN20
Installation	Vertical and horizontal
Media	Water, glycol
