

HYDRUN

Filter housing, bag, extra long HY-FHB-XL

→ 1-3 days delivery

→ 1-3 hours commissioning

Filtration for tougher facilities

The Hydrun House Bag Extra Long (HY-FHB-XL) is a high-capacity filter element that captures both dirt and magnetite to keep the system fluid clean in more demanding applications. It is designed for reliable filtration with a lower risk of clogging and easier maintenance over time.

Powerful separation

Powerful magnetic bars are used to prevent magnetite from passing through.

penable filter housing

Facilitates cleaning and servicing.

Flexible Filtering

The filter bag is available in several different micron sizes; adjust the filtration level as needed.

Easy and quick cleaning

The separator and magnet can be cleaned without being removed from the system.

Energy Saving

Save energy by continuously reducing the amount of dirt and magnetite in the system.

Model name	HY-FHB-XL
Previous name	MA-XL Magnetite and Cartridge Filter
Previous item no.	HL3200
Connection	2" internal thread
Gauss	7,000 (x4)
Filtration	Bag and magnetic rods (x4)
Filter rating	5, 25, or 50 microns
Maximum filter housing temperature	110 °
Maximum bag temperature	80°C
Max operating pressure	6 bar
Maximum flow rate	330 l/min
Material	304 stainless steel
Media	Water, ethylene, propylene, glycol
