

Filter House Cartridge 1x10" HY-FHC-1-10

→ 1-3 days delivery

Flexible filter insert for HY-F

The Hydrun Filter Cartridge Dirt/Magnetite (HY-FC-DM-1-10) is a filter insert for HY-F that captures dirt and magnetite with high efficiency. It is easy to replace during servicing and helps keep the system fluid clean – for fewer blockages and more stable operation.

Pressure Drop Measurement

The filter housing is equipped with ports that allow for measuring the pressure drop across the filter.

penable filter housing

Facilitates cleaning and servicing.

Flexible filtration level

The filter cartridge is available in several different micron ratings; adjust the filtration level as needed.

Easy and quick cleaning

The separator and magnet can be cleaned without being removed from the system.

Energy Saving

Save energy by continuously reducing the amount of dirt and magnetite in the system.

Model name	HY-FHC-1-10
Former name	MA-X
Previous item no.	A102301
Filtration	Cartridge
Filter rating	5, 25, or 50 microns
Gauss	8000
Maximum filter housing temperature	130°C
Maximum cartridge temperature	80°C
Maximum operating pressure	10 bar
Maximum pressure drop	1.5 bar
Maximum flow rate	20 l/min
Media	Water, ethylene, propylene, glycol
