What is this product?

TYPE

The product is a sub-fund of BCI AM SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors may decide to close this product under certain circumstances.

OBJECTIVES

The Fund's objective is to seek capital appreciation and income in the mid to long-term by investing in Latin American corporate credit, particularly in issuers with investment grade rating. The Fund will invest a minimum of 90% of its assets in Latin American corporate bonds with investment grade rating. The remaining will be invested in cash and cash equivalents, and/or in bonds below investment grade rating. For the avoidance of doubt, the Investment Manager will not solely or mechanically rely on credit ratings issued by credit rating agencies and will apply its own analysis of the creditworthiness of issuers, in particular it will apply a fundamental credit analysis approach along its investment process to assess the credit quality of the issuers and issues in which the Fund invests.

The Fund is actively managed in reference to the Benchmark JP Morgan CEMBI Broad Diversified Latin American Investment Grade index, which is a representation of an average market portfolio of the same asset class to which the fund belongs.

The Fund will monitor its level of market exposure based on the Beta of the portfolio (relative to the JP Morgan CEMBI Broad Diversified Latin American Investment Grade index), which is a common measure of the volatility of a portfolio in comparison to the market. The Fund will keep this metric in a range between 0.7 and 1.3 in order to avoid both, excessive and suboptimal risk in its portfolio.

The Fund will not make use of efficient portfolio management techniques or securities financing transactions (i.e., securities lending and (reverse) repos including total return swaps) and financial derivative instruments.

The Fund will not use leverage.

The Fund will not invest in contingent convertible bonds.

The Net Asset Value of the Fund is calculated on each Business Day in Luxembourg. If such day is not a Business Day, the Valuation Day will be the next following Business Day. The redemption days of the Fund are each Valuation day.

Please refer to the Prospectus for more information about the Sustainable Finance Disclosure Regulation ("SFDR") classification of the Fund.

In principle, capital gains and other income of the Fund will be re-invested and no dividend will generally be payable to shareholders.

INTENDED RETAIL INVESTOR

The product is reserved for institutional investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 3 years.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

What happens if FundSight S.A. is unable to pay out?

FundSight S.A. is not making any payment to you in relation to this Fund and you would still be paid in case of a default from FundSight S.A.

The Fund's assets are held with UBS Europe SE, Luxembourg Branch and are segregated from the assets of other sub-funds of the Company. The assets of the Fund cannot be used to pay the debts of other sub-funds of the Company.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 455	EUR 858
Annual cost impact (*)	4.5%	2.6% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.8% before costs and 3.2% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.00% of the amount you pay in when entering this investment.	Up to EUR 300
Exit costs	We do not charge an exit fee for this product.	EUR 0
Ongoing costs taken each year

Transaction costs	0.02% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 2
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	EUR 0

How long should I hold it and can I take my money out early?

Recommended holding period: 3 years.

The recommended holding period was chosen to provide a consistent return less dependent on market fluctuations.

Redemptions are possible every Business Day (a day on which banks are generally open for business in Luxembourg). All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 3 p.m (Central European time) on the relevant Valuation Day (each Business Day). Redemption proceeds shall be paid in the relevant reference currency usually within three (3) Business Days following the relevant Valuation Day.

How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:
