Overview of How We Use AI

- [Hannah Shepard](#)
 - What is AI?
 - Data-driven problem solving
 - It can replace energy in specific tasks and help generate ideas to help you work more efficiently
 - Always keep a human in the loop
 - How far AI has come and what we did for our AI-focused breakout last year
 - Ways I use AI...
 - Responding to reviews
 - Writing content
 - Honing in on a style of voice for an audience
 - Summarizing articles
 - Feedback/brainstorming

- Fun things: designing my house, planning a trip, therapy (kidding, but not really)
- **Luke Graham**
- **Jordan Bezet**
- **Michael Whittle**

Q&A - Luke can kick it off, but we will each answer spontaneously

Contact Info/Resources
