

HOW TO RECORD YOUR AUDITION

PRACTICE YOUR AUDITION SONG(S)

Learn the part provided in the tutorial for your instrument from start to finish. Pay attention to the details of the tutorial, as this is the standard by which your audition will be evaluated.

PREPARE YOUR 2 DEVICES

You'll need one for playing the song, one device for recording yourself.

TEST YOUR VIDEO/AUDIO

Record a short test sample to ensure:

- 1) You and your instrument can be seen in the frame (as seen in the above images).
- 2) Your instrument and the click track can **both** be heard clearly without overpowering each other.

RECORD YOUR AUDITION

Record yourself playing the entire audition song with the track labeled "CLICK".

UPLOAD & SHARE YOUR AUDITION

Upload directly to YouTube, using your name and the song name in the title of your video. Share this link with the person evaluating your audition.

EVALUATION CRITERIA: *Timing - Control - Attention to Detail - Confidence - Tone - Energy*
