

CASE STUDY

10,050+ Hours Saved at Atlantic Health

Atlantic Health is one of New Jersey’s largest healthcare networks, operating more than 400 facilities across the state. With new sites added each year, maintaining consistent, survey-ready compliance became increasingly complex and costly.

With over 6,700 Hexmodal Smart Emergency Lights & Exit Signs installed across their hospitals and offsite facilities, Atlantic Health has achieved:

\$382,235 Saved
in Annual Testing Costs

90% Reduction
in Time Spent by Contractors

10,050+ Hours Saved Annually
by Eliminating Manual Compliance Testing

“Hexmodal’s LED emergency lights were extremely easy to set up. **It was like magic!**”

Sabina Certa, Director of Property Management

The Challenge: 10,050 Hours Spent on Compliance Annually

Before Hexmodal, Atlantic Health facilities team had to drive to all sites to test their exit signs and emergency lights. This entailed:

100+ Offsite Facilities (MOBs, ASCs)

37% of labor hours spent traveling between sites

19 Contractors Managing Compliance Testing

Hexmodal's Solution

Atlantic Health installed over 6,700 Hexmodal Smart Emergency Lights and Exit Signs across its offsite building portfolio, saving time and keeping every building survey-ready. They got:

Automated NFPA 101 Tests

No more manual walkthroughs to perform monthly 30-sec and annual 90-min tests.

Real-Time Visibility

Immediate alerts for failed tests visible across every building, floor, and device.

Survey-Ready CMS Reports

Documenting compliance and repairs with less busywork and no pencil-whipping.

Reduced Contractor Hours

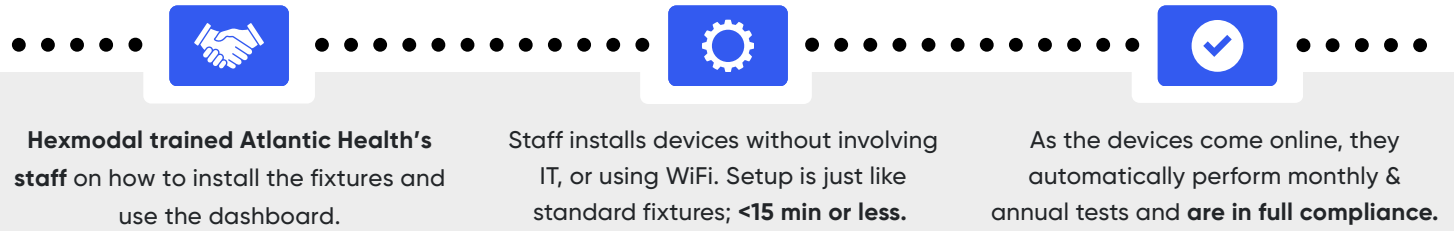

90% Less Time Spent by Contractors freeing money previously spent on compliance.

How the No-IT Deployment Works: Go Live in Days, Not Months

Day 1 Training & Onboarding

Day 2+ No-IT Installation

Day ∞ Automatically In Compliance

Hexmodal Can Help Automate Other Compliance Tests

Atlantic Health shows compliance does not need to be a manual burden. Hexmodal's devices automate CMS and NFPA standards for effortless facility-wide compliance.

Emergency Lights & Exit Signs:

NFPA 101-compliant testing and reporting.

Fire Extinguisher Inspections:

NFPA 10-compliant monthly inspections with documentation.

Room Pressure Monitoring:

Continuous CMS-compliant tracking for critical spaces.

Temperature Monitoring:

Automated reporting for medical refrigerators and freezers.
