

WINDOWS & HOME EXTERIORS

EXTERIOR DOOR OVERVIEW

BUILT FOR EVERYDAY LIFE

Your entry door is key to your home's comfort and safety. We design every door system with durable materials and advanced features that keep your home energy efficient, strong against weather, and secure from threats. Whether it's everyday performance or enhanced protection, our doors provide lasting peace of mind for your family and home.

ENHANCED ENERGY EFFICIENCY WITH POLYURETHANE FOAM CORE

Keep your home comfortable throughout the year with an insulating polyurethane foam core. This thermal barrier helps maintain a consistent indoor temperature by trapping air and resisting heat flow, improving energy efficiency and lowering energy bills. Many of our styles meet ENERGY STAR requirements, ensuring long-term energy savings and reliable comfort.

LASTING STRENGTH WITH WEATHER-RESISTANT MATERIALS

Your door is built to handle everything from freezing winters to scorching summers. The materials resist warping, cracking, and rot, so you don't have to worry about swelling, sticking, or unexpected repairs. Its long-term durability keeps your home protected with less maintenance.

FIT AND FUNCTION FOR YEARS TO COME WITH ADJUSTABLE HINGE

As houses settle and respond to seasonal weather changes, it can cause doors to shift, leading to drafts, difficulty opening and closing, and unnecessary wear. The adjustable hinge plate system* makes it easy to maintain a perfect fit, allowing you to make quick adjustments without professional help. These adjustments ensure a tight seal and smooth operation, keeping your entryway secure and weathertight year after year.

* Not available on Valueline series or fire-rated Weston series.

Advanced door edges of Timbergrain series to ensure long-term durability.

BUILT STRONG WITH REINFORCED CONSTRUCTION

Our steel and fiberglass entry doors are built to protect your home with durable construction that resists impact and wear. A concealed steel reinforcement plate behind the frame strengthens the lock area to help prevent forced entry. Whether you choose steel or fiberglass, every door is designed to enhance security and give you peace of mind.

GREATER SECURITY WITH MULTI-POINT LOCKING OPTIONS

Upgrade to multi-point locking hardware for added security at several points along the frame. It adds strength across the door frame to resist break-ins and keeps the door tightly in place, improving stability and protection.

PEACE OF MIND WITH FIRE-RATED DOOR OPTIONS

Select door styles can be labeled for fire ratings to provide protection between your house and garage. Steel doors are available with fire ratings up to 90 minutes. Select fiberglass doors can be labeled for 20 minutes[‡], offering an additional layer of safety and peace of mind in an emergency.

[‡] Reference product configurator for availability. Fixed hinge only.

QUALITY YOU CAN TRUST

At the heart of every door we make is a commitment to quality. From carefully selected materials to precision manufacturing and thoughtful details, each part of our door system works together to protect your home and create an entryway you can count on. Quality craftsmanship means your entryway enhances your home's curb appeal and offers lasting value and reliable performance.

MORE NATURAL LIGHT & VISIBILITY WITH MODERN GLASS OPTIONS

Enhance your home's curb appeal with stylish glass doors that maximize natural light and create a bright, welcoming atmosphere. Choose between two styles:

Framed Glass: Features a sleek, visible frame surrounding the glass, offering a timeless look.

Frameless Glass: With no visible frame, this modern style offers clean lines and more glass exposure, allowing more natural light to fill your home and creating a brighter, more open space.

ROT-RESISTANT STRENGTH WITH DURA-FRAME JAMB

The base of your door frame is made from naturally rot-resistant Alaskan Yellow Cypress to protect against moisture and insects. Its one-piece design (up to 12") creates a clean, sturdy frame backed by a limited lifetime warranty.

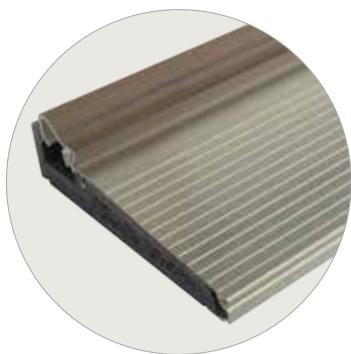

SMOOTH OPERATION WITH BALL-BEARING HINGES

Ball-bearing hinges reduce squeaks and eliminate grinding dust for a smoother door opening and closing, perfect for busy households. Available in various finishes, they combine everyday function with lasting beauty.

LASTING BEAUTY WITH LIFETIME WARRANTY

Everyday life can be tough on a door—kids, pets, and delivery drivers handling boxes. Our durable steel and fiberglass doors help your entryway stay flawless despite the wear and tear of daily life. Plus, with a limited lifetime warranty*, you can enjoy beauty and peace of mind for years.

YEAR-ROUND PERFORMANCE WITH AUTO-ADJUSTING SILL

Our Z-Articulating Cap Sill® adjusts automatically for a consistent seal against wind, water, and insects. The continuous sill design strengthens the system and helps prevent drafts or water leaks.

EASY MAINTENANCE FOR LONG-TERM BEAUTY

Every part of your entry door is built to stay looking great with less effort. Our low-maintenance components resist peeling, rust, rot, and warping over time. That means less upkeep and a door that continues to enhance your home's appearance year after year.

* Valueline series has a 10-year limited warranty.

DOOR SERIES

TIMBERGRAIN FIBERGLASS

Experience the warmth and character of real wood with the strength and durability of fiberglass. You'll find the perfect traditional to rustic look to match your home's style. These doors offer the beauty of real wood without the upkeep, providing long-lasting curb appeal and reliable performance.

Authentic Wood-Like Appearance in Five Species

Choose from Knotty Alder, Mahogany, Cherry, Fir, and Oak. Crisp shadow lines and lifelike graining replicate the texture of real wood, adding warmth and character to your entryway.

Durability That Resists Rot and Moisture Damage

Premium hardwood edges replicate the look of a real wood door while resisting rot and decay. Composite top and bottom rails prevent moisture absorption and won't rot over time, helping your door maintain its appearance and function.

Strength and Stability for Lasting Performance

Four-inch reinforced stiles keep your door straight and secure, preventing warping or bowing caused by temperature changes, so it stays aligned and reliable.

Enhanced Energy Efficiency with Insulating Core

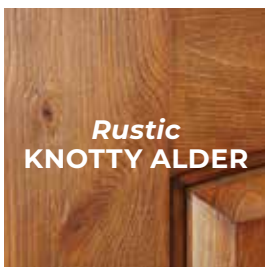

The insulating polyurethane foam core helps regulate indoor temperature, reducing heating and cooling costs while keeping your home more comfortable year-round.

Smooth Operation with Adjustable Hinge Plate System

As your home settles and seasons change, doors can shift, causing drafts or making them difficult to open and close. Timbergrain doors let you adjust the fit yourself, maintaining a tight seal and smooth operation year after year.

Confidence Backed by a Lifetime Warranty

A limited lifetime warranty gives you peace of mind that your Timbergrain door will remain a beautiful, dependable part of your home for years.

DOOR SERIES

WESTON™ BRUSHED SMOOTH FIBERGLASS

Weston doors offer the perfect balance of beauty and performance. With a design that mimics the elegance of real wood, these fiberglass doors bring lasting durability and a sophisticated look to your home. Weston doors withstand any climate, creating a strong entryway that resists warping, cracking, and rotting, requiring minimal upkeep.

Authentic Wood-Like Finish with a Brushed Texture

Weston's distinctive brushed finish mimics the natural texture of a painted wood door, adding a warm, sophisticated feel to your home. Unlike smooth fiberglass doors, this unique surface brings depth and charm, enhancing your curb appeal with a modern take on classic style.

Smooth Operation with Adjustable Hinge Plate System†

As your home settles and seasons change, doors can shift, causing drafts or making them difficult to open and close. Weston doors let you adjust the fit yourself, maintaining a tight seal and smooth operation year after year.

Enhanced Energy Efficiency with Insulating Core

The insulating polyurethane foam core helps regulate indoor temperature, reducing heating and cooling costs while keeping your home more comfortable year-round.

Added Protection with Fire-Rated Options

Select Weston styles‡ feature fire-rated options that provide a 20-minute fire barrier to help slow fire between your house and garage, offering extra protection for your home and family.

Beauty That Lasts with a Lifetime Warranty

Daily use is no match for Weston's tough fiberglass surface, which resists dents, scuffs, and scratches. A limited lifetime warranty gives you long-term confidence that your entryway will continue to look great and perform well.

DOOR SERIES

NORWOOD TEXTURED STEEL

Enjoy the warmth of wood with the strength of steel. Norwood doors feature a deeply embossed Oak grain texture that captures the beauty of real wood. Designed for durability and low maintenance, this series offers lasting performance, security, and curb appeal.

Wood-Like Texture with a Realistic Oak Grain Finish

The Oak grain texture gives these steel doors the natural look of real wood. It adds character and charm to your entryway while delivering the strength and durability of steel.

Durable Construction for Lasting Performance

Norwood doors are made from strong 22-gauge steel that stands up to dents, warping, and cracking. A rust-resistant galvanized finish protects in high moisture and coastal areas, while a composite lock block keeps hardware secure without swelling or absorbing moisture.

Smooth Operation with Adjustable Hinge Plate System

As your home settles and seasons change, doors can shift, causing drafts or making them difficult to open and close. Norwood doors let you adjust the fit yourself, maintaining a tight seal and smooth operation year after year.

Extra Protection with Full Steel-Edge Design

A full steel-edge perimeter reinforces the door for added strength and security, helping protect against forced entry. This design meets the industry's highest standard with a Grade 40 security rating, giving your home reliable protection that lasts.

Enhanced Energy Efficiency with Insulating Core

The insulating polyurethane foam core helps regulate indoor temperature, reducing heating and cooling costs while keeping your home more comfortable year-round.

Peace of Mind with Lifetime Warranty

A limited lifetime warranty gives you lasting confidence in your door's performance and appearance.

Added Protection with Fire-Rated Options

Fire-rated options provide up to 90 minutes of protection to help slow the spread of fire between your house and garage. These doors meet residential building codes in many areas and give you extra peace of mind. Just look for the fire symbol to find available styles.

DOOR SERIES

CAMBRIDGE SMOOTH STEEL

Classic style meets everyday strength. Cambridge doors feature a smooth, clean surface that delivers a sleek, modern look to fit a variety of home designs. These doors resist daily wear and tear while providing durable, energy-efficient protection and lasting curb appeal.

Built to stand up to whatever life brings, Cambridge doors help create a welcoming entryway that adds value and beauty to your home for years.

Durable Construction with Heavy-Duty 22-gauge Steel

Cambridge doors are made from tough 22-gauge steel and resist dents, warping, and cracking. A rust-resistant galvanized finish adds protection in coastal or high-moisture areas, while a composite lock block keeps hardware secure without swelling or absorbing moisture.

Extra Protection with Full Steel-Edge Design

A full steel-edge perimeter reinforces the door for added strength and security, helping protect against forced entry. This design meets the industry's highest standard with a Grade 40 security rating, giving your home reliable protection that lasts.
