Pulse Labs

Jan 2022 – Mar 2025
(3 yrs, 2 mos)

Product Designer

Independently and collaboratively designed AI-assisted features for a global research platform, delivering high-fidelity, actionable data used by teams at Google, Amazon, and Rivian to drive their multi-million dollar product roadmaps.

Redesigned, prototyped, and validated end-to-end participant task flows, significantly decreasing participant cognitive load, support tickets, and rejected study data.

J.P. Morgan

Mar 2021 – Aug 2021
(5 mos)

UX Design Consultant

Delivered actionable design recommendations and a full-scale conceptual redesign based on end-to-end UX research (heuristic evaluation, stakeholder interviews & moderated user testing) to InstaMed product team.

Various clients

Sep 2011 – Present
