

USA Esports – Non-Discrimination Statement

USA Esports is committed to ensuring that every individual has an equal opportunity to participate in esports - as a competitor, coach, official, volunteer, staff member, or leader - free from discrimination and harassment of any kind.

USA Esports does not discriminate on the basis of race, color, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, age, disability, socioeconomic status, or military or veteran status in any of its programs, activities, competitions, or employment and volunteer opportunities. This policy applies to all members, participants, and volunteers while engaged in USA Esports programs.

Membership in USA Esports and participation in competitive pathways, leadership roles, coaching, officiating, and administrative functions shall not be restricted on the basis of any protected characteristic listed above.

USA Esports recognizes that equal opportunity requires more than the absence of explicit barriers. We are committed to identifying and addressing the structural conditions that limit access to and advancement within the sport, and to building systems that reflect the full diversity of the esports community in the United States.

All members, staff, volunteers, and affiliated organizations are expected to uphold this commitment in their conduct and in the environments they help create.
