MIXED WITH PASSION, CURIOSITY & TEAM SPIRIT

Some bars have a drinks menu.

We have a passion for what goes into every glass.

Our Home Made Ice Teas, Signature Cocktails and Red Bull Cocktails are our own creations. We experiment with ideas, combine flavours and refine our recipes until they feel just right.

For us, it's not about making things as complicated as possible. It's about creating drinks with character – balanced, surprising and simply delicious.

Behind the bar, creativity meets craftsmanship. Different ideas, experiences and personalities come together, inspiring new creations time and time again – sometimes carefully planned, sometimes completely spontaneous.

Local Love

Great taste starts with the products we choose. That's why, wherever possible and meaningful, we focus on regionality, quality and personal partnerships.

With H.u.M. Hofer Organic Winery, Copperstone Gin and Enkidus Braustube, we work with people whose products have their own story and unique character. To us, they are more than suppliers – they are part of the Open World Family.

How It All Began

Behind Open World are Kathy & Alois – and a story that started in a way that feels pretty fitting for this place.

We first met over a game of pinball in 2024 and grew closer while playing StarCraft together. Games turned into conversations, conversations into a shared vision – and eventually into much more. What started with pinball in 2024 grew into love, family and a shared passion project: Open World.

Alois comes from the film industry and brings creativity, a feel for atmosphere and, above all, a genuine community spirit. Kathy combines entrepreneurship and structure with her personal passion for enjoyment and well-being.

Two different worlds came together to create the kind of place we would love to visit ourselves.

Open World is our passion project. A place where gaming meets great food and drinks. Where people share their passions, play together, eat, drink and simply have a good time. A place where a drink can turn into a conversation – and a shared game might just turn into a new friendship.

We're happy to have you as part of our story.
