OUR CAPABILITIES

DELIVERING UNMATCHED VALUE

At EPA Spares, we specialise in high-quality aftermarket and genuine parts for Caterpillar, Hitachi, and Komatsu equipment. Supporting mining, civil, quarry, and construction operations, our well-stocked inventory provides fast access to the parts our clients need. With strong industry knowledge and a focus on dependable service, we help reduce downtime and keep machinery operating efficiently.

Supporting Continuous Performance

We offer a broad selection of parts to ensure your equipment operates at its best, with high-quality aftermarket and genuine parts from trusted brands. From everyday requirements to more specialised needs, our responsive team works to provide the right solution when it is needed most. With reliable availability and tailored support, we help keep equipment performing and projects moving forward.

TESTIMONIALS

“““

EPA has consistently supplied us with high-quality parts that meet our stringent requirements. They provide a prompt service; whenever we've needed parts urgently, EPA has always managed to deliver in a timely manner, keeping our operations running smoothly. Moreover, their competitive pricing makes them a valuable partner, helping us manage costs without compromising on quality.

– Matthew Watson | Plant GM
SMS Mining Services

“““

We recently purchased and received 2 x Genuine CAT 793D Final Drive Kits through EPA, and the whole process couldn't have gone smoother. The service was spot on, professional, efficient, and hand delivered on time. Jamie was great to deal with from start to finish. Couldn't recommend EPA and Jamie highly enough!

– Scott Harrison | Perth Branch Manager
Complete Parts and Equipment Solutions

“““

EPA Spares is a close partner and genuine alternative to OEM product support and parts we supply. We recently purchased a set of genuine 992K drive shafts & D10T undercarriage hardware from the team. Would highly recommend!

– Mark Hick | General Manager

A DURABLE SOLUTION

CATERPILLAR AFTERMARKET PARTS

Built for demanding applications, our EPA Spares aftermarket parts support a wide range of Caterpillar machinery, including D10T, D10T2, 16M, 18M, 777F/G, 785C/D, 789C/D, 793C/D/F, 988K, 992K, and 993K models. We continue to expand our inventory to include next-generation parts for D10 and D11 dozers, 988 and 992 wheel loaders, and 18 series graders. Manufactured to OEM standards, these parts deliver dependable performance and help keep equipment operating efficiently and productively.

SUPPORT WHERE IT MATTERS

KOMATSU AFTERMARKET PARTS

Engineered for performance and built to last, our aftermarket Komatsu parts are a dependable choice for heavy-duty equipment. We support key models such as PC1250-8, PC1250-11, 785-7, and 785-8, with a reliable inventory that makes sourcing components simple. Each part is manufactured to meet OEM standards, helping to maintain machine integrity and support ongoing productivity.

ENGINEERED TO PERFORM

SURPLUS PARTS

We source and secure new surplus parts from a global network of trusted partners, giving our clients access to genuine components at highly competitive prices. Each item is carefully selected to ensure it meets the demands of heavy-duty applications, without the lead times typically associated with new supply. This approach allows us to broaden our inventory and provide dependable options across a wide range of equipment.

NEW OEM SURPLUS PARTS

These quality parts provide a cost effective solution for equipment repair and maintenance. Built to OEM standards, they offer dependable fit across a range of applications.

USED PARTS

We source and dismantle machinery to maintain a strong supply of quality used parts. Each component is inspected to ensure it is suitable for continued use and support.

OUR ASSURANCE

Delivering Unrivalled Value

We build lasting relationships with our clients by understanding their needs and providing tailored solutions. By focusing on practical and reliable outcomes, we ensure our clients get the support they need to maintain their operations efficiently and effectively, fostering trust and lasting partnerships.

OUR RESPONSIBILITY

Commitment to Quality and Safety that Keeps You Operating at Your Best

We understand the demands of mining operations and take a proactive approach to delivering the support your equipment requires. By aligning our expertise with your operational needs, we help reduce downtime and enhance fleet performance. Our premium aftermarket and genuine parts are rigorously tested and fully compliant with industry standards, ensuring reliability, machine protection, and operator safety.

To support equipment availability, our Component Service Exchange ensures replacement components meet OEM-equivalent standards, are thoroughly inspected, and are ready to perform with confidence. With practical solutions, responsive service, and a commitment to long-term value, we help you maintain momentum where it matters most.

SECURE ONLINE ORDERING

Convenient access to our parts anytime, anywhere.

LOCAL INVENTORY, FAST DELIVERY

High-volume stock in WA means quicker responses to urgent needs.

RELIABLE PERFORMANCE & VALUE

Parts are tested to meet OEM standards, ensuring optimal performance & value.

PERFORMANCE FOCUSED

G.E.T PARTS

Our G.E.T. range for wheel loaders includes essential wear components such as teeth, segments, and adapters, all built to meet strict OEM standards. Designed for strength, durability, and precise fit, these parts perform reliably in high-impact, abrasive conditions. By protecting the bucket and improving penetration, our G.E.T. solutions help extend equipment life and boost productivity.

DESIGNED WITH PRECISION

SERVICE EXCHANGE

We offer a Component Service Exchange Program designed to minimise downtime and keep operations running efficiently. Customers can exchange worn or failed components for fully rebuilt, ready-to-install replacements from our inventory. Each unit is rebuilt to OEM equivalent standards, tested, and backed by warranty, ensuring reliable and cost-effective equipment availability.
