

ShapelyTech is live on Shopify! 🎉

Today marks an important milestone for us, because **ShapelyTech** is officially available on the **Shopify App Store**, bringing our custom sizing and fit solutions directly to your storefront.

We know the biggest hurdle in e-commerce: **Returns**. In fact, fit-related issues account for over **70%** of all apparel returns.

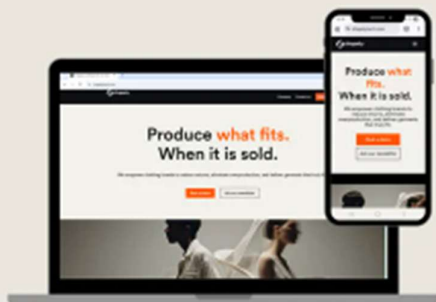

We're here to change that narrative by turning "will this fit?" into "I love this look."

Book your Demo

Get your private demo with only one click and see what our solution is capable of!

*to ensure a smooth onboarding, we offer a onboarding session to each customer, where we help install the app and start the journey

Why you should use ShapelyTech

Integrate ShapelyTech into your Shopify store isn't just about adding a widget - it's about upgrading your entire customer experience.

- **Return Reduction:** Our technology reduces size-related returns around 80 %.
- **Stop Overproduction:** Using ShapelyTechs custom solution can reduce overproduction by 50 %.
- **Competitive Advantage:** Be part of the new era of how fashion fits.
- **Sustainability Win:** Fewer returns mean a smaller carbon footprint. Better for your margins, better for the planet.

ShapelyTech solves customers fitting struggles as well as overstock and high returns with our easy-to-use, **Made-on-Demand** and **Made-2-Measure** scalable solution.

“We are rethinking how clothes are made.”

Wendy Heijne, Founder

Interested in meeting us?

Join us next week at the Future Fabrics Expo in Brussels.

You can find us in the Innovation Hive Booth H1.

Looking forward seeing you there!
