CEDA Online Orientations

CEDA Corporate Orientation

Min/Max Participants: N/A

This mandatory web-based course is for all CEDA employees, subcontractors, and direct service providers. It introduces CEDA's culture, history, service lines, and core values while covering essential safety tools, health and safety policies, key rules, and the short-service employee program to promote a safe work environment.

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	1 year continuous absence from CEDA
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	1 hour

CEDA Field Orientation

Min/Max Participants: N/A

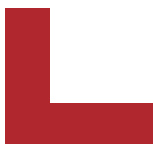

This web-based course is for employees working in the field or with field workers. It covers potential hazards like benzene, H₂S, hot condensate, and static electricity while emphasizing safe practices. Topics include selecting and using Personal Protective Equipment (PPE) correctly and completing CEDA's Field Level Hazard Assessment (FLHA).

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	1 year continuous absence from CEDA
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	1 hour

CEDA Driver's Orientation

Min/Max Participants: N/A

This web-based course is mandatory for all CEDA employees operating a CEDA vehicle or operating a vehicle for CEDA business. Course content includes a review of the Transportation Safety Practice, Journey Management Practice, Corporate Vehicle Policy and Distracted Driving Policy as well as safe vehicle operations.

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	1 year continuous absence from CEDA
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	1 hour

Centennial Place East Tower Orientation

Min/Max Participants: N/A

This web-based course is mandatory for all CEDA employees working at the Centennial Place East Tower Location in Calgary. Course content includes a review of access & egress, location of first aid stations, emergency meeting points and response plans, emergency medical procedures and a building orientation.

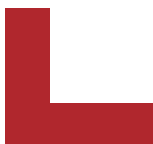

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	1 year continuous absence from CEDA
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	20 minutes

Landmark Orientation

Min/Max Participants: N/A

This web-based course is mandatory for all CEDA employees working at the Landmark Location in Edmonton. Course content includes a review of access & egress, location of first aid stations, emergency meeting points and response plans, emergency medical procedures and a building orientation.

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	1 year continuous absence from CEDA
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	20 minutes

Safety Training

Bear Spray Practical

Min/Max Participants: 1-30

This in-person course provides allows successful participants to be certified to carry bear spray.

Accepted Institution:	Any Suncor Approved Bear Spray Practical including in-house
Participant Requirements:	N/A
Expiration Period:	3 years
Cost CEDA In-house:	N/A
Outsourced Course Cost:	\$126.00
Completion Time:	15 minutes

CEDA Lock-Out Tag-Out Awareness

Min/Max Participants: N/A

This web-based course outlines CEDA's minimum requirements for safely performing lock-out/tag-out procedures at CEDA worksites.

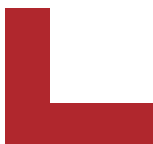

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	N/A
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	30 minutes

CEDA Permit to Work Awareness

Min/Max Participants: N/A

This web-based course is designed to provide the participant with CEDA's permit requirements for performing work in CEDA worksites.

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	N/A

Cost CEDA In-house: N/A
Outsourced Course Cost: N/A
Completion Time: 30 minutes

Confined Space Entry & Monitor

Min/Max Participants: 1-20

This classroom-based or web-based course is required for all employees working in confined space environments. Course content includes understanding confined spaces and restricted spaces, recognizing hazards, controls and the duties of a confined space monitor.

Accepted Institution: Energy Safety Canada & In-house
Participant Requirements: Government-Issued Photo ID
Expiration Period: 3 years
Cost CEDA In-house: N/A
Outsourced Course Cost: \$199.50
Completion Time: 8 hours
Online Option: \$90, approximately 4 hours
Online requirements: Webcam as the exam is proctored

Fall Protection

Min/Max Participants: 1-20

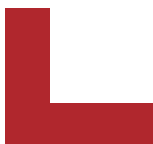

This classroom-based training course is required for all employees working at heights. This course is designed to provide end-users with understanding of the use of fall protection as it relates to work performed at height.

Accepted Institution: Energy Safety Canada & In-house
Participant Requirements: Government-Issued Photo ID
Expiration Period: 3 years
Cost CEDA In-house: N/A
Outsourced Course Cost: \$200.00
Completion Time: 8 hours

Field Ergonomics

Min/Max Participants: N/A

This web-based course is required for CEDA employees who will be operating at Suncor

Facilities in the Regional Municipality of Wood Buffalo. The musculoskeletal injuries caused by poor ergonomics can affect individuals working in the field. Recognizing risks and prevention management help to decrease opportunities for injuries. This training teaches participants to identify, understand the risk factors, the impact of musculoskeletal disorder and injuries and apply control to mitigate its effects.

Accepted Institution: Energy Safety Canada

Participant Requirements: N/A

Expiration period: N/A

Cost CEDA In-house: N/A

Outsourced Course Cost: \$49.00

Completion Time: 30 minutes

Fire Extinguisher

Min/Max Participants: 1-25

This classroom-based training course is available for all employees utilizing a fire extinguisher. Course content includes understanding how fires are created, determining the various classes of fires, examining the rules of safe firefighting, how to properly inspect a fire extinguisher, and practical application of extinguishing a virtual fire.

Accepted Institution: In-house

Participant Requirements: N/A

Expiration Period: N/A

Cost CEDA In-house: N/A

Outsourced Course Cost: N/A

Completion Time: 1 hour

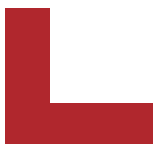

Gas Detection

Min/Max Participants: N/A

This classroom -based training course is available for employees working in gaseous atmospheres. This course includes training on gas detectors, bumper gas, and gas detection accessories. Upon completion of this course participants will learn how to perform inspections, gas tests, interpret alarms, evaluate evacuation and alarm responses, and the limitations of gas detection equipment.

Accepted Institution: Astec Safety Inc. online or any third party provider in-class (ex: Leavitt)

Participant Requirements: N/A

Expiration Period:	3 years
Cost CEDA In-house:	N/A
Outsourced Course Cost:	\$150.00
Completion Time:	4 hours
Online Option:	\$99.99, approximately 1.25 hours
Online requirements:	N/A

H2S Alive

Min/Max Participants: N/A

This classroom-based training course is available for all employees who could be exposed to hydrogen sulphide (H₂S). The primary focus is to help people work safely in and around H₂S environments.

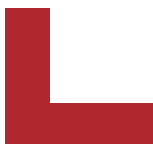

Accepted Institution:	Energy Safety Canada
Participant Requirements:	Government Issued Photo ID
Expiration Period:	3 years
Cost CEDA In-house:	N/A
Outsourced Course Cost:	\$150.00
Completion time:	8 hours

Hydrogen Sulphide Awareness

Min/Max Participants: N/A

This web-based course is required for CEDA employees who will be operating at Suncor Facilities in the Regional Municipality of Wood Buffalo. The purpose of this course is to provide a basic overview of the dangers of H₂S for workers who may attend a location with H₂S but are not fit tested or assigned respiratory equipment and are not expected to work in an H₂S environment. It is not for individuals who regularly work in an H₂S environment and is not a replacement for the H₂S Alive® training course.

Accepted Institution:	Energy Safety Canada
Participant Requirements:	N/A
Expiration Period:	N/A
Cost CEDA In-house:	N/A
Outsourced Course Cost:	\$49.00
Completion Time:	30 minutes

OHS Alberta Legislation Awareness

Min/Max Participants: N/A

This web-based course is required for CEDA employees who will be operating at Suncor Facilities in the Regional Municipality of Wood Buffalo. Everyone in the workplace—employers, supervisors, workers, contractors, and suppliers—are responsible to keep the workplace safe. For this reason, this course reviews the rights and responsibilities of employers, supervisors and workers as outlined in the Alberta Occupational Health and Safety, also known as the OHS Legislation. This course covers the intent and purpose of OHS Legislation and explores the relevant parts of the OHS Act, Regulation and Code.

Accepted Institution: Energy Safety Canada

Participant Requirements: N/A

Expiration period: N/A

Cost CEDA In-house: N/A

Outsourced Course Cost: \$49.00

Completion Time: 1 hour

Quantitative Fit Testing

Min/Max Participants: N/A

This practical-based training course is available for employees requiring quantitative fit testing. Participants will be asked to fill out a medical disclosure to ensure that wearing a respirator is appropriate. Quantitative fit testing is available on the following respirators: North (full and half mask), 3M (full and half mask), MSA (full and half mask) and Scott (2000/3000).

Accepted Institution: Any 3rd party provider (ex: CannAmm)

Participant Requirements: Must be clean shaven

Expiration Period: 2 years or as personal conditions change (for example: changes to facial structure)

Cost CEDA In-house: N/A

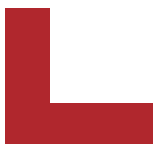

Outsourced Course Cost: \$40.00

Completion Time: 20 minutes

Respiratory Protective Equipment

Min/Max Participants: N/A

This classroom-based training course is available for employees working in Immediately Dangerous to Life or Health (IDLH) atmospheres. This course is designed to provide the student with the basic skills necessary skills for effective care, use and inspections of a Self-Contained

Breathing Apparatus and Supplied Air Breathing Apparatus.

Accepted Institution: Any 3rd party provider (ex: CICT)

Participant Requirements: Government-Issued Photo ID

Expiration Period: 2 years

Cost CEDA In-house: N/A

Outsourced Course Cost: \$150.00

Completion Time: 4 hours

Wood Buffalo Wildlife Awareness

Min/Max Participants: N/A

This web-based course is required for CEDA employees who will be operating at Suncor Facilities in the Regional Municipality of Wood Buffalo. Everyone in the workplace—employers, supervisors, workers, contractors, and suppliers—are responsible to keep the workplace safe. For this reason, this course reviews the rights and responsibilities of employers, supervisors and workers as outlined in the Alberta Occupational Health and Safety, also known as the OHS Legislation. This course covers the intent and purpose of OHS Legislation and explores the relevant parts of the OHS Act, Regulation and Code.

Accepted Institution: Energy Safety Canada

Participant Requirements: N/A

Expiration Period: 3 years

Cost CEDA In-house: N/A

Outsourced Course Cost: \$49.00

Completion Time: 1 hour

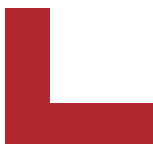

Wood Buffalo Wildlife Intermediate

Min/Max Participants: N/A

This web-based course is required for CEDA employees who will be operating at Suncor Facilities in the Regional Municipality of Wood Buffalo. Wood Buffalo Wildlife Intermediate explores characteristics of wildlife commonly found in the Wood Buffalo region, reporting wildlife interactions, regulatory obligations, carrying deterrents and proficiently utilizing bear spray in simulated wildlife encounters. Using the foundational knowledge of the Wood Buffalo Wildlife Awareness course, delve deeper into wildlife features, encounters, reporting and response strategies.

Accepted Institution: Energy Safety Canada

Participant Requirements: N/A

Expiration Period:	3 years
Cost CEDA In-house:	N/A
Outsourced Course Cost:	\$49.00
Completion Time:	1 hour

WHMIS

Min/Max Participants: N/A

This web-based training course is mandatory for all CEDA employees. This course encompasses the general knowledge of symbols, classification, Safety Data Sheets (SDS), and all other pertinent information used to identify hazardous products as required by legislation.

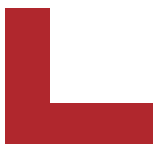

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	3 years
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	1 hour

WHMIS Refresher

Min/Max Participants: N/A

This web-based training course reinforces key WHMIS requirements and introduces Chemscape (CEDA's online tool for chemical management).

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	3 years
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	20 minutes

CEDA Commercial Driver's Training

CEDA's required Commercial Driving training program is a combination of legislative and proactive training courses to better prepare our commercial drivers for challenges on today's roads. CEDA's Federal Commercial Drivers are drivers that have the ability to drive in multitude of provinces where CEDA's Provincial Commercial driver only have the ability to driver in Alberta.

Cargo Securement

Min/Max Participants: N/A

This web-based training course is for all CEDA employees who drive commercial vehicles. The course content meets the North American standard for cargo securement (National Safety Code Standard 10) and includes proper identification and use of the various securing devices and techniques for different types of cargo.

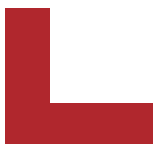

Accepted Institution:	CayCan Safety Consulting Ltd.
Participant Requirements:	N/A
Expiration Period:	N/A – annual knowledge check required where applicable
Cost CEDA In-house:	N/A
Outsourced Course Cost:	\$49.95
Completion Time:	1.5 hours

Electronic Logging Device (ELD)

Min/Max Participants: N/A

This web-based training course is for all federally regulated CEDA employees who drive commercial vehicles. The course is designed to provide participants with an understanding of the ELD and how to utilize it to meet the Hours of Service requirements.

Accepted Institution:	In-house
Participant Requirements:	Completion of Hours of Service, Trip Inspection, Weights & Dimensions and Cargo Securement
Expiration Period:	1 year of continuous absence from CEDA
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	1 hour

Daily Pre-Trip Inspection

Min/Max Participants: N/A

This web-based training course is for all CEDA employees operating a CEDA commercial vehicle. This course covers National Safety Code standard 13 for daily inspections of commercial vehicles. Participants will learn how to properly inspect a vehicle and identify if defects will put the unit out of service. This course also reviews the air brake pre-trip inspection so that drivers can ensure the air brake system is properly adjusted and the vehicle is safe and legal to operate.

Accepted Institution:	CayCan Safety Consulting Ltd.
Participant Requirements:	N/A
Expiration Period:	N/A – annual knowledge check required where applicable
Cost CEDA In-house:	N/A
Outsourced Course Cost:	\$89.99
Completion Time:	1 hour

Engine Brake

Min/Max Participants: N/A

This web-based training course is for all CEDA employees operating a CEDA commercial vehicle. This course provides participants knowledge and training around the use of engine braking. This include when to use and when not to use an Engine Braking device.

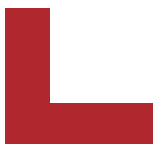

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	N/A
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	20 minutes

Log Book and Hours of Service (Federal or Provincial)

Min/Max Participants: N/A

This web-based training course mandatory for all employees operating CEDA commercial vehicles. Course content includes the Federal or Alberta provincial hours of service regulations that commercial drivers must comply with. Participants will also learn how to properly complete a log book.

Accepted Institution:	Wheels On
-----------------------	-----------

Participant Requirements:	N/A
Expiration Period:	N/A – annual knowledge check required where applicable
Cost CEDA In-house:	N/A
Outsourced Course Cost:	\$99.99
Completion Time:	50 minutes (provincial), 4 hours (federal)

Rollover Prevention

Min/Max Participants: N/A

This web-based training course is for all CEDA employees operating a CEDA commercial Vehicle. This course provides participants knowledge and techniques to avoid one of the most dangerous type of accident on the road.

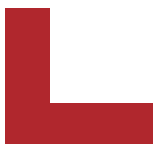

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period	N/A
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	20 minutes

Transportation of Dangerous Goods (TDG)

Min/Max Participants: N/A

This web-based training course is required for all CEDA employees involved in transporting, handling, shipping, receiving or supplying dangerous goods. The course is designed to provide participants with an understanding of the Transportation of Dangerous Goods Act regarding the handling, transportation, offering or importing of goods labelled as dangerous by the Canadian government.

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	3 years
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	3 hours

Weights and Dimensions

Min/Max Participants: N/A

This web-based training is for all CEDA employees operating a CEDA commercial vehicle. This course covers the National standard for Weights and Dimensions for commercial vehicles. Participants will learn how established maximum vehicle weight and dimension limits help preserve highway infrastructure and the safety of the public. This includes legal limits for any registered vehicle for travel on any public road, as well as the provision for movement of oversize loads under permit.

Accepted Institution:	CayCan Safety Consulting Ltd.
Participant Requirements:	N/A
Expiration Period:	N/A – annual knowledge check required where applicable
Cost CEDA In-house:	N/A
Outsourced Course Cost:	\$49.99
Completion Time:	2 hours

Technical Training

Industrial Vacuum

Min/Max Participants: 1-20

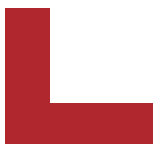

This classroom-based training course is for employees working with Dry Vacuum and Wet Vacuum units, designed to introduce participants to their safe operation.

Accepted Institution:	In-house
Participant Requirements:	Personal protective equipment
Expiration Period:	1 year of continuous absence from CEDA
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	8 hours

High Pressure Water Blasting

Min/Max Participants: 1-20

This classroom-based training course is for employees working with High Pressure Water

Blasting units, designed to introduce participants to their safe operation of 10-15K Pumps and the Dump Gun.

Accepted Institution:	In-house
Participant Requirements:	Personal protective equipment
Expiration Period:	1 year of continuous absence from CEDA
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	8 hours

High Pressure Specialty

Min/Max Participants: 1-20

This classroom-based training course is for employees working with High Pressure Specialty Tools, designed to introduce participants to their safe operation. The tools covered will be determined based on project scope.

Accepted Institution:	In-house
Participant Requirements:	Personal protective equipment
Expiration Period:	1 year of continuous absence from CEDA
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	8 hours

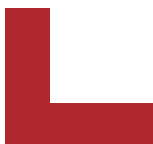

Mobile Equipment Training

Counterbalanced Forklift

Min/Max Participants: 1-10

This classroom-based training course is available for employees operating a Counterbalanced Forklift. This lift course is designed to provide vertical mast forklift operators with a solid foundation in health & safety standards, preventative maintenance, and proper procedures for safe operation.

Accepted Institution:	In-house or any 3rd party provider (ex: Leavitt)
Participant Requirements:	Personal protective equipment
Expiration Period:	3 years
CEDA In-class Cost:	N/A

Out Sourced Cost: \$150.00

Completion time: 6 hours

Mobile Elevated Work Platform (MEWP)

Min/Max Participants: N/A

This classroom-based training course is available for employees operating a Mobile Elevated Work Platform. This training program is designed to provide operators with a solid foundation in health and safety standards, preventative maintenance and proper procedures for safety operation. The course consists of classroom theory with a written component and practical hands on experience.

Accepted Institution: Any 3rd party provider (ex: AT Safety)

Participant Requirements: Fall Protection and personal protective equipment

Expiration Period: 3 years

Cost CEDA In-house: N/A

Outsourced Course Cost: \$150.00

Completion time: 8 hours

Skid Steer

Min/Max Participants: 1-6

This classroom-based training course is available for employees operating a Skid Steer. This course is designed to provide heavy machine operators with a solid foundation in health and safety standards, preventative maintenance, and proper procedures for safe operation.

Accepted Institution: In-house or any 3rd party provider (ex: Leavitt)

Participant Requirements: Personal protective equipment

Expiration Period: 3 years

CEDA in-house cost: N/A

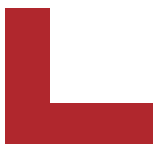

Out Sourced Cost: \$150.00

Completion Time: 6 hours

Wheel Loader/Front End Loader

Min/Max Participants: 1-6

This classroom-based training course is available for employees operating a Wheel Loader/Frontend Loader. This training program is designed to provide wheel loader operators with a solid foundation in health and safety standards, preventative maintenance and proper procedures for safety operation. The course consists of classroom theory with a written component and practical hands on experience.

Accepted Institution:	In-house or any 3rd party provider (ex: Leavitt)
Participant Requirements:	Personal protective equipment
Expiration Period:	3 years
CEDA in-house cost:	N/A
Out Sourced Cost:	\$150
Completion Time:	6 hours

Leadership Training

CEDA Drug and Alcohol Policy Awareness

Min/Max Participants: 5-25

This classroom-based or web-based course is available for existing and upcoming leaders and Health & Safety professionals. Course content provides an overview, with examples, of CEDA's drug and alcohol policy and its application.

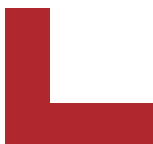

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	N/A
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	1 hour

Respect in the Workplace

Min/Max Participants: 5-25

This classroom-based or web-based course is available for all CEDA employees, provides an overview of CEDA's Workplace Harassment and Violence Policy. Through practical examples and real-world scenarios, participants gain a clear understanding of expected workplace behaviors and how to recognize, address, and prevent disrespectful conduct.

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	N/A
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	1 hour

Leading Through Turnaround

Min/Max Participants: 4-25

This classroom-based training course is available for employees identified as leaders during Turnaround periods. Learners will gain an understanding of the roles and responsibilities of a turnaround supervisor. This course can be modified as required to suit the specific turnaround requirements.

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	N/A
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A
Completion Time:	6 hours

CEDA Leadership Development Program

The CEDA Leadership Development Program supports progression within CEDA's Competency Framework by building the leadership capabilities required for level two leadership.

This classroom-based program is delivered in three modules. Each module strengthens key skills and aims to close gaps in leadership competencies as aligned to our competency expectations.

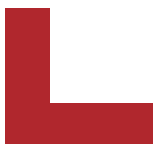

Module 1 CEDA Leadership Development Program

Min/Max Participants: 4-25

Competency Focus: Skilled Communication, Demonstrating Accountability, Innovative Thinking, and Business Acumen & Strategic Thinking

This classroom-based module builds foundational leadership capability. Participants explore leadership behaviors, self-awareness, delegation, communication strategies, and problem-solving techniques. Leaders develop the ability to think strategically, communicate expectations clearly, make accountable decisions, and approach challenges with innovative solutions that support business outcomes.

Accepted Institution:	In-house
Participant Requirements:	N/A
Expiration Period:	N/A
Cost CEDA In-house:	N/A
Outsourced Course Cost:	N/A

Completion Time: 6 hours

Module 2 CEDA Leadership Development Program

Min/Max Participants: 4-25

Competency Focus: Teamwork & Collaboration, Developing Our Talent, Managing Change, and Customer Focus

This classroom-based module focuses on leading high-performing teams. Content includes team development stages, building collaboration, coaching for performance, and effectively leading through change. Leaders strengthen their ability to develop others, foster teamwork, support engagement, and ensure team alignment with customer and operational expectations.

Accepted Institution: In-house

Participant Requirements: CDLP Module 1

Expiration Period: N/A

Cost CEDA In-house: N/A

Outsourced Course Cost: N/A

Completion Time: 6 hours

Module 3 CEDA Leadership Development Program

Min/Max Participants: 4-25

Competency Focus: Tying it all together

This classroom-based module equips leaders with the tools to manage expectations, address performance concerns, handle rule-breaking behaviors appropriately, and apply progressive discipline processes. Participants learn how to deliver constructive feedback, maintain accountability, support cultural standards, and lead change initiatives in a way that protects both people and business outcomes.

Accepted Institution: In-house

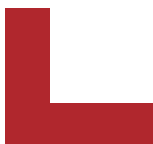

Participant Requirements: CDLP Module 1 & 2

Expiration Period: N/A

Cost CEDA In-house: N/A

Outsourced Course Cost: N/A

Completion Time: 6 hours

HSE Leadership Fundamentals (Part 1-7)

This program provides a comprehensive overview of CEDA's core Health, Safety, and Environmental expectations and systems. The course is designed to build a strong foundation in how we protect our people, manage risk, and meet our legal and operational responsibilities across all worksites.

Each part is designed to ensure employees understand the systems, processes, and accountabilities that support safe, compliant, and responsible operations at CEDA.

Min/Max Participants: 1-20

This classroom-based or web-based course will equip CEDA Leaders with increased safety leadership knowledge by participating in each respective parts

- Part 1: Protect Our People
 - Safety Culture
 - Health and Safety Systems, OHS Legislation and Supervisor Responsibilities
 - Job Competency, Training and Mentor/ Assessorship
- Part 2: Hazard Management and Risk Assessment (HIRA)
- Part 3: Incident Management
- Part 4: Injury Management
- Part 5: Environmental Management
- Part 6: Emergency Response Planning
- Part 7: Contractor Management

Accepted Institution: In-house

Participant Requirements: N/A

Expiration Period: N/A

Cost CEDA In-house: N/A

Outsourced Course Cost: N/A

Completion Time: Each part has a different completion time, please reach out to your HSE team for more information

If you are working through a development assignment to close a competency gap and cannot find a specific course listed in this catalogue, please connect with us.

The catalogue may not reflect all available learning options. CEDA offers additional modules and resources that may not be formally listed, and we can also support you in identifying alternative learning activities, custom development ideas, or goal-based solutions tailored to your competency needs.

Our team is available to help align development plans with the skills required for success in your role.
